First Revised Sheet 1

S2. BASIC LOCAL EXCHANGE SERVICE

S2.1 GENERAL

- A. The general plan for furnishing telecommunications exchange service is based on the usage of the telecommunications plant, exclusive of the equipment located on the customer side of a connecting terminal at the premises of the customer.
- B. The rates for subscriber access apply to all subscribers regardless of whether the customer premise equipment (CPE) is rented from the telephone company or provided by the subscriber. Other related charges are shown in other schedules of this Price List and are in addition to those rates shown in this schedule.
- C. The rates shown in this schedule are for a period of one month, payable in advance, and entitle the subscriber an unlimited number of messages to all stations in the areas designated in S2.3 at a flat rate.
- D. All rates for telephone service, unless otherwise specified, are monthly rates and the minimum charge, unless otherwise specified, for any item of service provided is an amount equal to one month's charges at the regular authorized rate.
- E. Rates which are applicable to all installations are quoted in S3.

S2.4 BASIC LOCAL EXCHANGE RATES

The monthly rates for subscribers located in each exchange are:

	Business	Residence
Individual Line	\$33.19	\$18.00

S2.5 DIRECTORY ASSISTANCE SERVICE

Directory Assistance Services are provided to Millry customers by Millry Telephone LD, LLC, as set forth in Millry Telephone LD's Price List.

S2. BASIC LOCAL EXCHANGE SERVICE**S2.6 OPERATOR ASSISTED CALLING**

Operator Assisted Calling Services are provided to Millry customers by Millry Telephone LD, LLC, as set forth in Millry Telephone LD's Price List.

S2.7 OPERATOR VERIFICATION/INTERRUPTION SERVICE

Operator Verification/Interruption Service is provided to Millry customers by Millry Telephone LD, LLC, as set forth in Millry Telephone LD's Price List.

S2.8 DUAL PARTY RELAY SERVICE

A. General

Dual Party Relay Service permits hearing and speech impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

B. Rates

The Company charges a \$0.15 monthly surcharge for Dual Party Relay Service.

S2.9 AREA CALLING SERVICE

A. Description of Service

1. General

Area Calling Service is an optional offering that provides seven digit local calling from the subscribers home wire center to all other participating local exchange companies' wire centers within the same LATA at decreased rates.

Silas-542 Chatom-847, Deer Park-777, Fruitdale-827

B. Rates (Terminating at exchanges of other Participating Local Exchange Companies)

The following usage rates are applicable for all Area Calling Service calls to a terminating exchange of another participating local exchange carrier. These rates are applicable 7 days a week, 24 hours per day.

	IntraLATA	IntraCompany
PER MINUTE CHARGE	\$0.0700	\$0.02000

S2. BASIC LOCAL EXCHANGE SERVICE**S2.10 LIFELINE ASSISTANCE PROGRAM**

Lifeline Assistance is a government assistance program developed to reduce rates for primary residential telephone service and broadband Internet access service to qualifying subscribers who receive income-based benefits. The Company participates in this program to increase the availability of telecommunications services to all consumers in its serving areas.

A. General

Lifeline Assistance reduces an eligible customer's monthly rates for basic voice telephone service or broadband Internet access service. An eligible customer receives one federally subsidized credit per month toward the cost of voice telephone service or broadband Internet access service.

1. Where available, the broadband Internet access service provides the current minimum broadband speed (Mbps) and current minimum monthly usage allowance (GB) established by the FCC. Dial-up service and WiFi or similar service that cannot be accessed by subscribers at their residential address does not qualify as a broadband Internet access service for purposes of Lifeline Assistance.
2. If the current minimum broadband speed established by the FCC is not available, the Lifeline discount may be applied to the highest performing generally available residential offering that meets or exceeds 4 Mbps downstream/1 Mbps upstream.

B. Regulations

To constitute a qualifying low-income customer eligible to receive Lifeline services, a customer must meet the requirements set forth in either paragraph 1. or 2. below:

1. A customer's household income must be at or below 135% of the Federal Poverty Guidelines for a household of that size;
 - (a) For purposes of these rules, "income" means gross income as defined under Section 61 of the Internal Revenue Code, 26 U.S.C. § 61, for all members of the household. This means all income actually received by all members of the household from whatever source derived, unless specifically excluded by the

PRICE LIST

Millry Telephone Company, Inc.

Section

2

Issued and Effective: December 26, 2018 Fourth Revised Sheet 5
Internal Revenue Code, Part III of Title 26,
26 U.S.C. § 101, et seq.

S2. BASIC LOCAL EXCHANGE SERVICE**S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)**

B. Regulations (Cont'd)

1. (Cont'd)

(b) A "household" is any individual or group of individuals who are living together at the same address as one economic unit. A household may include related and unrelated persons. An "economic unit" consists of all adult individuals contributing to and sharing in the income and expenses of a household.

An adult is any person eighteen (18) years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be considered part of the same household. Children under the age of eighteen (18) living with their parents or guardians are considered to be part of the same household as their parents or guardians.

2. Lifeline Assistance is also available to all qualified residential customers who currently participate in any of the following low income assistance programs: Medicaid, Supplemental Nutrition Assistance Program ("SNAP"), Supplemental Security Income ("SSI"), Federal Public Housing Assistance ("FPHA") or Veterans and Survivors Pension Benefit. A subscriber will also be considered to be eligible even if he does not personally participate in any of these programs, so long as an individual who lives in his household participates in at least one of the qualifying programs.

3. In addition to meeting the qualifications provided in paragraph 1. or 2. of this section, in order to constitute a qualifying low-income customer, a customer must not already be receiving a Lifeline service, and there must not be anyone else in the subscriber's household subscribed to a Lifeline service.

S2. BASIC LOCAL EXCHANGE SERVICE**S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)**

B. Regulations (Cont'd)

4. Qualifying subscribers must provide the Company with acceptable documentation as proof of their eligibility to receive Lifeline service under the income-based or program-based requirements; the documentation must be securely retained by the Company. If the Company has a reasonable basis to believe that the subscriber no longer meets the qualifying criteria for Lifeline service, the Company must notify the subscriber of impending termination of the subscriber's Lifeline service in writing separate from the subscriber's monthly bill. If the subscriber fails to provide proof of eligibility within thirty (30) days following the Company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the expiration of the subscriber's time to respond to the request.
5. If the Company receives notification from the program administrator that the subscriber is receiving Lifeline service from another eligible telecommunications carrier or that more than one member of a subscriber's household is receiving Lifeline service, the subscriber will be de-enrolled from Lifeline Assistance without notice within five (5) business days following the Company's receipt of the program administrator's notification.
6. The Company will confirm a subscriber's continued eligibility to receive Lifeline service on an annual basis by requiring the subscriber to sign a certification as to his/her present qualifications for Lifeline service. The Company must notify the subscriber in writing separate from the subscriber's monthly bill that failure to respond to the recertification request will trigger de-enrollment. If the subscriber fails to provide proof of eligibility within sixty (60) days following the company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the

PRICE LIST

expiration of the subscriber's time to respond to
the recertification efforts.

S2. BASIC LOCAL EXCHANGE SERVICE**S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)**

B. Regulations (Cont'd)

7. A subscriber who requests de-enrollment must be de-enrolled by the Company within two (2) business days after the request.
8. The Company will process all applications and apply the appropriate credit on the customer's monthly bill. A secondary service charge is not applicable for existing customers who subscribe to Lifeline Assistance.
9. As a participant in Lifeline Assistance, customers are eligible to receive Toll Limitation Service at no charge for any Lifeline voice telephone service that charges a fee for toll calls, either domestic or international, that is in addition to the monthly price of the customer's Lifeline service. This service will only be provided at the customer's request and is limited to plans that distinguish between local and long-distance calling.
10. Local service deposit requirements will be waived for customers who voluntarily receive Toll Limitation Service.
11. Participants in Lifeline Assistance shall not be disconnected from Local Service for non-payment of toll charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of toll charges. The Company may require customers whose otherwise eligible household member has previously unpaid toll charges to subscribe to toll blocking prior to being accepted as eligible for Lifeline Assistance. Lifeline Assistance will not be connected if an outstanding balance is owed by the customer for local service.

S2. BASIC LOCAL EXCHANGE SERVICE**S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)**

B. Regulations (Cont'd)

12. Partial payments that are received from Lifeline voice telephone customers will first be applied to local service charges and then to any outstanding toll charges.
13. Lifeline subscribers may apply their Lifeline discount to voice telephone service, broadband Internet access service, or a bundle of broadband Internet access service and voice telephone service; and plans that include optional calling features, such as, but not limited to, caller ID, call waiting, voicemail, and three-way calling. The Lifeline discount may also be applied to family shared data plans. The calling plan must be in the name of the eligible subscriber, and a household may receive only one Lifeline supported service. Partial payments from Lifeline subscribers purchasing bundled packages or packages containing optional calling features will first be applied to pay down the allocated price of the Lifeline supported services.
14. The PICC will not be billed to Lifeline customers who subscribe to toll blocking and do not pre-subscribe to a long distance carrier.

S2. BASIC LOCAL EXCHANGE SERVICE**S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)**

C. Credit

1. The following credit will apply for each customer eligible for Lifeline Assistance:

Monthly Credit*

Federal Credit (one credit per month) \$ 9.25

The maximum Lifeline Assistance credit available to Alabama customers is \$9.25 per month.

*Credit amount will not exceed the basic charge for local telephone service, which includes the Subscriber Line Charge, access line and local usage, or for the Company's listed charge for the subscribed service offering or for similar offerings subscribed to by customers who do not qualify for Lifeline Assistance.

2. This discount is first applied to waive the monthly federal subscriber line charge (End User Common Line charge) if the carrier is receiving Lifeline support for the subscriber's voice telephony service, with the remainder applied to the subscriber's monthly rate for the primary individual line service or primary bundled access line service.

S2.11 ALABAMA LATA-WIDE CALLING PLAN - Home Advantage

A. General

1. The Alabama LATA-Wide Calling Plan is called Home Advantage.
2. Home Advantage is an optional calling plan that provides:
 - a. one-way seven-digit calling for customers in the Chatom, Deer Park, Frankville, Fruitdale, Gilbertown, Millry and Silas exchanges to all exchanges within the LATA in which they reside; and,

S2. BASIC LOCAL EXCHANGE SERVICE**S2.11 ALABAMA LATA-WIDE CALLING PLAN - Home Advantage
(Cont'd)**

A. General (Cont'd)

2. (Cont'd)

- b. one-way ten-digit calling for customers in the Chatom, Deer Park, Frankville, Fruitdale, Gilberttown, Millry and Silas exchanges to the following exchanges located outside the LATA in which they reside: Butler (205-457, 205-459); Lisman (205-398); Pennington (205-654) and Needham (205-673).

B. Regulations

1. Home Advantage is available to residential customers.
2. Home Advantage provides residential customers with unlimited minutes per month of calling within their LATA and between certain exchanges located outside their LATA for a flat monthly charge.
3. The same Lifeline credits that are applied for regular Residential One-Party service will apply for Lifeline customers that choose to subscribe to Home Advantage.
4. All non-recurring charges are waived for the initial subscription to Home Advantage. A Central Office Connect and Service Order Charge will apply on second and subsequent call plan changes.
5. Home Advantage provides unlimited minutes of use for residential voice service only. If it is determined that usage is not consistent with residential voice applications, such as for Internet access services, commercial facsimile or auto-dialing, permanent call forwarding, three-way calling, resale, telemarketing, or other non-residential uses, Millry Telephone Company may immediately suspend, restrict or cancel service without prior notice and will bill such non-voice usage at a rate of \$0.10/minute.
6. Call Detail will not be provided to customers choosing Home Advantage. In the event that it is determined that usage is not consistent with residential voice applications (see Regulation 5.

S2. BASIC LOCAL EXCHANGE SERVICE

**S2.11 ALABAMA LATA-WIDE CALLING PLAN - Home Advantage
(Cont'd)**

B. Regulations (Cont'd)

7. This service is not available to Company-owned or Customer-owned public telephone subscribers.
8. All rules and regulations that appear in other sections of this Price List apply unless otherwise stated herein.

C. Rates

	Rate Per Month*
1. Home Advantage	\$38.30

* This rate includes the Residential One-Party rate as identified in Section S2.4 above.

S2. BASIC LOCAL EXCHANGE SERVICE**S2.12 CHANNELIZED DS-1 SERVICE**

When a multiline business subscriber utilizes their own equipment to channelize local service at a DS-1 level, the Federal End User Line Charge (EUCL) will apply at a ratio of five (5) per DS-1. The subscriber will advise the telephone company of this arrangement. DS-1 service is available in Section 6, IntraLATA Private Line Service.

S2.13 CONCESSION SERVICE

A. General

1. The classes of subscribers specified following are allowed the concession indicated for the access line portion of all local exchange services described in Section S2.4 of this Price List. In connection with usage-based pricing services (such as measured rate, message rate, or Area Calling Service), the concession applies on the amount of the monthly access line rate but not on associated usage charges or allowances.
2. Concessions are not allowed to any class of subscribers from the regular rates for the following services and equipment:
 - a. Toll Messages
 - b. Joint User Service
 - c. Construction Charges
 - d. Additional Directory Listings
 - e. Miscellaneous equipment or other facilities, including any extension line mileage charges associated with the miscellaneous equipment or other facilities.
 - f. Installation, Service Connection, Inside Move, or Change Charges

B. Charitable Institutions

1. A concession of fifty percent (50%) from the regular business rate is allowed to corporations, associations and institutions, or any branch thereof who comply with all of the following qualifications:

PRICE LIST

Millry Telephone Company, Inc.

Section

2

Issued and Effective: April 1, 2015

Third Revised Sheet

11

- a. Are dependent upon voluntary contributions for their support;

S2. BASIC LOCAL EXCHANGE SERVICE**S2.13 CONCESSION SERVICE (Cont'd)**

B. Charitable Institutions (Cont'd)

1. (Cont'd)

- b. Are exclusively engaged in charitable work;
- c. Provide a majority of its services free of charge and utilize any compensation received for its services wholly in the prosecution of its charitable work, not resulting in any profit to the organization or any member thereof;
- d. Are engaged principally in the furnishing of direct aid to the physical health and comfort of human beings in the form of money, services or necessary commodities. For determining eligibility for concession service, those corporations, associations, and institutions whose principal work is the elevation or enlightenment of minds or morals, or the reformation, punishment, or correction of acts, habits, or mental conditions, or the enforcement of law, or the protection of rights, are not to be classified as charitable institutions
- e. Communications equipment furnished at concession rates for charitable institutions must be located in the administrative offices, institutional buildings or any of the branches thereof.

C. Churches

A concession of fifty percent (50%) from the regular business rate is allowed to churches, provided the telephone is located in the church or church study, and listed under the name of the church.

D. Volunteer Services

A concession of fifty percent (50%) from the regular business access line rate is allowed to Volunteer Fire Departments. The telephone must be located on the premises of the fire department and used solely for fire department business.

DISCLAIMER: Bundled Service Plans are available to residential customers only. Prices do not include regulatory fees, taxes, 911 charges, modem lease or purchase. International, calling card, incoming toll free, third party, collect and data transmission calls (including calls to Internet access numbers) are not included and will be billed separately at applicable rates found in the company's tariff and price list. Long distance offers apply to voice calls only - long distance Internet calls are not included. Plan changes are not allowed within the first 30 days. Initial connection is free. If a plan is discontinued and added back at later date, a \$32.25 connect fee will apply. A downgrade fee of \$27.00 is applicable when switching to a lower speed Internet package. A minimum twelve (12)-month commitment is required for subscription to plans containing high-speed Internet services; customary charges will apply for early termination. Plans offering high-speed internet services may not be available in all areas, and advertised speeds are not guaranteed. All other written terms and conditions applicable to the provisioning of service by Millry Telephone and the individual services included under these plans apply. **Millry Telephone reserves the right to discontinue or change package plans upon thirty (30) days notice and to terminate plans on accounts showing excessive usage not consistent with the average long distance voice usage for the Company's unlimited long distance residential customers.**

Section 3
Original Sheet 1

S3. SERVICE CONNECTION CHARGES

S3.1 GENERAL

- A. When an applicant requires a special type of construction or a type of facilities not normally provided, or where the conditions imposed by the applicant, such as the time and place involved, make the installation abnormal or excessively expensive, the applicant shall be required to pay the additional expense incurred by the Telephone Company, determined as follows: The difference between the expense incurred by the Telephone Company for such construction, facilities, or installation and the expense which would otherwise be incurred for a normal type of construction or facilities or a normal installation.
- B. Service order charges apply, except as specified in this section or in other sections of the Price List, to customer initiated requests for establishment of telephone service, reconnecting service which has been temporarily disconnected for nonpayment, installing supplemental equipment and establishing miscellaneous service. Service order charges apply in addition to installation charges provided for in other sections of the Price List unless stated otherwise.
- C. The charges specified contemplate work being performed by the Telephone Company during the usual working hours on normal working days. When, at the specific request of the customer or applicant for service, work is performed at other times, either for the convenience of the customer or applicant for service or for other reasons not under the control of the Telephone Company, the expense incurred by the Telephone Company in excess of the normal expense of such work, when performed during usual working hours on normal working days, may be billed to the customer or applicant for service, in addition to the charges otherwise applicable.

S3.2 DEFINITIONS

- A. Service Order Charge: This charge is applied each time a service order must be written, executed and processed.
 - 1. Business Service Order Charge: Applied to the initial order for a given business customer.
 - 2. Residence Service Order Charge: Applied to the initial order for a given residential customer.

S3. SERVICE CONNECTION CHARGES

S3.2 DEFINITIONS (Cont'd)

- B. Central Office Work Charge: This charge is applied when it is necessary to rearrange central office wiring in order to complete a given installation or change of service.
- C. Access Line Work Charge: This charge applies when a necessary line from the central office to the customer's premises must be established, changed or rearranged, including cross connections and terminal rearrangements.
- D. Premise Visit Charge: This charge applies when a visit to the subscriber's premises is required.
- E. Returned Check Charge: An administrative charge will be applied to each returned check received. Telephone service will be subject to discontinuance if payment is not promptly received.
- F. Installation Charge: This charge applied to the provision of certain items of equipment or facilities and is in addition to applicable service charges. These charges are identified and presented throughout this Price List as a part of the offering.
- G. Restoration Charge: This charge applies for restoration of service after suspension for nonpayment or to the restoration of service for suspension of service temporarily at the request of the customer.
- H. Termination Charge: This charge applies when a subscriber cancels an order for service prior to the establishment of that service. A termination charge equals the cost incurred by the Company in engineering, ordering and providing the equipment and disposing of it, less credits obtained through disposal, and any service connection charges for work completed up to the receipt of such cancellation by the subscriber.
- I. Number Change Charge: This charge applies when a customer requests a change in their telephone number.

S3. SERVICE CONNECTION CHARGES

S3.3 APPLICATION OF SERVICE CHARGES

A. General

1. Service charges as used herein and in other sections of this Price List are applicable to the ordering, connecting, moving, changing, rearranging and furnishing of telephone service and other telephone facilities and service. The charges apply as follows except as provided hereinafter in other sections of this Price List.
2. Service order charges are applicable to the following services:
 - a. All classes of Basic Local Exchange Service
 - b. Coin Telephone Service
 - c. Telephone Answering Service
 - d. Private Branch Exchange Service
 - e. Key and Push Button Service
 - f. Directory Listings
 - g. Miscellaneous Service Arrangement and Auxiliary Equipment
3. Where the service desired necessitates the use of more than one item of service subject to the service charge, the total charge is the sum of the separate service charges for each item of service furnished except as hereinafter provided.
4. When service is re established at a location which has been destroyed or made untenable by fire, wind or flood, service charges for connection, move or change do not apply when service is re established within a reasonable time. If the subscriber desires service at a new location for a temporary period, service charges for connection will apply for the establishment of service at a temporary location but no service charge will apply when service is re-established at the former location.
5. Service charges may be paid at the time of application of service or as otherwise provided herein.
6. Where service is established at a concession rate, except employees' concessions, no concession is allowed for the regular service charges.

S3. SERVICE CONNECTION CHARGES

S3.3 APPLICATION OF SERVICE CHARGES (Cont'd)

A. General (Cont'd)

7. Service charges apply to changing, or adding custom calling features, number changes or any other miscellaneous service as specified in this Price List.
8. When time and material charges are specified in this Price List, they are in addition to any other applicable service charges. Material is charged at the lease/purchase cost. Time is considered to be actual time of the persons directly involved, plus the usual overhead allocations of labor.
9. There will be no service charge applied for removing or suspending service.
10. Change of name orders are accepted only where the service to and the responsibility of one subscriber is transferred to another with no lapse in service.

B. Application

1. Service Order - Applies per customer request for establishment of service, for work performed by the Company for the same account. Where more than one account is located at the same premises, work in each individual account will be considered separately.
2. Central Office Work Charge - Applies for work in the central office necessary to effect customer requested changes in service.
3. Access Line Work Charge - Applies to the connection of local exchange lines, local private lines, outside extension lines and any other services requiring a drop wire.
4. Premise Visit - Applies to the installation or move in location of the network interface device beyond a minimum point of penetration. Applied only when work is requested by customer.

S3. SERVICE CONNECTION CHARGES

S3.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

5. Returned Check Charge - An administrative charge will be applied to each returned check received. Telephone service will be subject to discontinuance if charges are not promptly paid.
6. Installation Charge - This charge applied to the provision of certain items of equipment or facilities and is in addition to applicable service charges. These charges are identified and presented throughout this Price List as a part of the offering.
7. Restoration Charge - Applies to the restoration of service following a temporary suspension of such service for nonpayment of charges or for suspension of service at request of subscriber.
 - a. When any subscriber's service has been suspended for non-payment of any sum due the Telephone Company, the service will be restored upon payment of the amount due and applicable service charges. Monthly service charges will not be prorated by the Company while service is suspended; however, additional recurring charges may continue to accrue for some services past the current monthly billing period after the date of suspension, as required by any additional terms and conditions of service.
 - b. The Telephone Company reserves the right to charge a deposit as outlined in the Alabama Public Service Commission Rules and Regulations before service will be restored.
8. Termination Charge - Applies when a subscriber cancels an order for service prior to the establishment of that service. A termination charge equals the cost incurred by the Company in engineering, ordering, and providing the equipment and disposing of it, less credits obtained through disposal, and any service connection charges for work completed up to the receipt of such cancellation by the subscriber.
9. Number Change Charge - Applies when a customer requests a change in their telephone number.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.1 CUSTOM CALLING SERVICES**

A. Basic Feature Definitions

1. Call Forwarding - This provides an arrangement for transferring incoming calls to another telephone number by dialing a code and the number of the service to which calls are to be transferred.
2. Three-Way Calling - This permits an existing call to be held, and, by dialing, a second telephone call can be established and added to the connection. Normal transmission performance quality cannot be guaranteed on all calls.
3. Call Waiting/Cancel Call Waiting:

Call Waiting - By means of a tone signal, a customer who is using his telephone is alerted when another caller is trying to reach his station. Call Waiting allows the first caller to be put on hold while the second call is answered.

Cancel Call Waiting - This arrangement will allow a Call Waiting subscriber to disable the Call Waiting feature of their telephone for the duration of a telephone call. The subscriber dials a code prior to placing a call to temporarily disable the Call Waiting feature.
4. Speed Calling - This provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. This arrangement is available in an eight-number capacity.
5. Call Transfer - This is an arrangement that enables a subscriber to receive or originate calls on their number and transfer that call to a second number. This is done by a switch-hook of the receiver button and dialing the third party's number. The subscriber hangs up the phone leaving the two parties connected. Call Transfer can only be used in connection with individual line service and both lines must be served out of the same central office. Subscribers must also subscribe to Three-Way-Calling for this feature to work.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.1 CUSTOM CALLING SERVICES (Cont'd)**

A. Basic Feature Definitions (Cont'd)

6. Warm Line - This service places a call to a pre-selected number without the caller dialing any digits. The call is placed after the receiver is taken off the telephone set and a number is not dialed within a specified time. Warm line is particularly useful for elderly, handicapped or young people.

B. Advanced Feature Definitions

1. Personal Ringing - Provides two or more different phone numbers and rings for a single telephone line. Used to distinguish incoming calls.
2. Call Back - By dialing the ACB activation code, a subscriber directs the switch to recall the DN of the last outgoing call from his set. The switch will set up the call to that DN whether or not the called party answered the original call. Therefore, without having to redial the DN, the subscriber can use ACB either to contact a party he has been unable to reach or continue an interrupted discussion. If the called line is busy, the switch queues the ACB request and delays processing of the call until both the called and calling parties are idle.
3. Call Return - This feature enables a customer to place a call to the telephone number associated with the most recent call received whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next thirty minutes both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.

PRICE LIST

Millry Telephone Company, Inc.

Section

4

Issued and Effective: April 1, 2010

First Revised Sheet 2

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.1 CUSTOM CALLING SERVICES (Cont'd)**

B. Advanced Feature Definitions (Cont'd)

4. Call Block - This feature provides the customer the ability to prevent incoming calls from up to six different telephone numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive his call at this time.

5. Caller Identification - Basic (Name and Number Delivery) (formerly known as Caller Identification Deluxe)

This feature enables the customer to view on a display unit the calling party Directory Name and Directory Number on incoming telephone calls.

A maximum of 15 characters is allowed for transmission of the calling party Directory Name. When Caller ID Basic is activated on a customer's line, the calling party Directory Name and Directory Number on incoming calls will be displayed on the called CPE during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID Basic customer.

Any customer subscribing to Caller ID Basic will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.1 CUSTOM CALLING SERVICES (Cont'd)**

B. Advanced Feature Definitions (Cont'd)

6. Caller Identification - Deluxe (Name and Number Delivery and Call Waiting)

This feature enables the customer to view on a display unit the calling party Directory Name and Directory Number on incoming telephone calls and provides the customer with call-waiting alerts when the customer is on another call. The customer is required to subscribe to Call Waiting, as provided in Section 4.1.A.3 of this Price List, in addition to Caller Identification - Deluxe, in order for this feature to function. The rate for Caller ID Deluxe listed below does not include the cost of a subscription to Call Waiting.

A maximum of 15 characters is allowed for transmission of the calling party Directory Name. When Caller ID Deluxe is activated on a customer's line, the calling party Directory Name and Directory Number on incoming calls will be displayed on the called CPE during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID Deluxe customer.

Any customer subscribing to Caller ID Deluxe will be responsible for the provision of a Call-Waiting-ID capable display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

Call Waiting - By means of a tone signal, a customer who is using his telephone is alerted when another caller is trying to reach his station. Call Waiting allows the first caller to be put on hold while the second call is answered.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.1 CUSTOM CALLING SERVICES (Cont'd)**

B. Advanced Feature Definitions (Cont'd)

7. Call Selector Distinctive Ringing - Provides a distinctive ringing pattern to the subscribing customer for up to ten specific telephone numbers.

The customer creates a screening list of up to ten telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring.

8. Preferred Call Forwarding - This feature allows the customer to transfer selected calls to another telephone number. A screening list of up to ten numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and if found to match a number on the screening list.
9. Selective Call Acceptance - Allows the customer to select certain numbers only to be terminated at their number. Numbers not on the list will hear a recorded announcement.
10. Anonymous Call Rejection - Blocks calls from those who are blocking their name and number when calling the customer. Anyone who uses the blocking option when calling will be automatically sent to a recorded message informing them the customer does not wish to receive their call.
11. Remote Access Call Forward - Provides a customer the Call Forwarding Variable feature and the capability to activate and deactivate the service remotely from any line/equipment capable of Touch-Tone signaling rather than only from the base station line. This feature does not require that a courtesy call be completed to the forward-to telephone number.
12. Busy Call Forwarding - Forwards incoming calls to a pre-designated number when the line is busy.

B. Advanced Feature Definitions (Cont'd)

13. Delayed Call Forwarding (Cont'd)

answered within a specified time frame. The default time frame is 30 seconds, but can be set for 1 to 60 seconds upon request.

14. Hot Line - This service automatically places a call to a pre-selected number without the caller dialing any digits when the receiver is taken off the telephone set and a number is not dialed.

C. Usage Sensitive Feature Definitions

Call Tracing - Enables the customer to initiate an automatic trace of the last call received.

D. General

1. The services are limited to those areas served by central offices equipped for Custom Calling Services and are subject to the availability of facilities. Some of the Advanced Features utilize the network's ability to forward a calling number between the originating and terminating central offices. These features may only be used on calls originating and terminating in central offices with the technical capability to provide this service.
2. Call Return is not available on operator handled calls. In connection with Call Return, the Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-Published Listing Service.
3. Upon activation of Call Tracing by the customer, the network automatically sends a message to the Company's Security Department indicating the calling number, the time the trace was activated, and in some locations, the time the offending call was received. The customer using this feature would be required to contact the Telephone Company for further action.
4. Customers utilizing Call Tracing will not receive the traced telephone number. The results of a trace will be furnished only to legally constituted authorities upon proper request by them. The Company is not liable for damages if a trace attempt is not successful. Call Tracing is

available on a usage basis only.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.1 CUSTOM CALLING SERVICES (Cont'd)**

D. General (Cont'd)

5. Customers subscribing to both Call Waiting and Call Selector will receive a distinctive waiting tone when a call is received from a telephone number on the Call Selector screening list while the line is in use.
6. When customers initiate Caller ID Basic and Deluxe, they will be given free per call restrict.
7. Use of Caller ID Basic and Deluxe requires a telephone number display device designed for use with Caller ID. The Telephone Company is not responsible for obtaining, maintaining or repairing any such device except as it may separately agree in writing with a customer.
8. To activate Busy Call Forwarding, contact the Company's Business Office. When the order is taken, the customer will be asked to provide the pre-designated number to which the calls will be forwarded. A separate service order charge may be applicable, as set forth in Section 3 of this price list.
9. To activate Delayed Call Forwarding, contact the Company's Business Office. When the order is taken, the customer will be asked to provide the pre-designated number to which the calls will be forwarded. The customer may request a delayed time frame other than the default 30 second time frame when placing the order. A separate service order charge may be applicable, as set forth in Section 3 of this price list.

E. Limitations of Liability

1. The Telephone Company will not be liable for any economic harm, personal injury, invasion of any right of privacy of any person, or any other harm, loss or injury, caused or claimed to be caused, directly or indirectly, by the Telephone Company's delivery or failure to deliver the telephone number of a calling party.

- i. There is no connection charge associated with Call Tracing.
 - ii. The charge applies for successful activation only.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.2 TELEPHONE NUMBERS IN ROTARY (GROUPING SERVICE)**

Grouping service is a combination of two or more lines or trunks connected to the central office so that incoming calls overflow to the next available line if one line is busy. A monthly rate for grouping service applies for each line or trunk, in addition to the basic individual line or trunk rate.

	Residence	Business
Monthly Rate per line or trunk	\$6.30	\$6.30

S4.3 TOLL RESTRICTION SERVICE**A. General**

Call Code Restriction (CCR) is a service which enables customers to restrict certain types of outgoing calls from being placed over their exchange lines/trunks. It is offered with options containing various sets of codes to be restricted, and is available to basic exchange customers with individual line residence or business service or PBX trunks in either flat or message rate service environments.

CCR does not provide restriction of non-chargeable calls to Company numbers such as repair service, or Public Emergency Service numbers (911).

Customers may subscribe to whichever option meets their needs, but only one option may be provided on a line/trunk or group of lines/trunks.

CCR is furnished only from central offices equipped to provide this service and where facilities permit.

Subscribing to CCR does not relieve customers of responsibility for calls charged to their numbers.

Customers who subscribe to CCR options which restrict operator access must notify all users of their service that an operator cannot be reached.

The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes specified below.

CCR will be established and provided at no charge for

customers receiving Lifeline Service.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.3 TOLL RESTRICTION SERVICE (Cont'd)**

B. Call Code Restriction Options

1. Option #1: Restrict 1+, 0-, 0+, 00-, IDDD 01+, IDDD 011+, NPA 900, NPA 800, NPA 888, NPA 877, NPA 866.
2. Option #2: Restrict 976, NPA 900.
3. Option #3: Restrict 1+, 0-, 0+, 00-, IDDD 01+, IDDD 011+, NPA 900.

C. Rates

The following rates and charges apply for all CCR options and are in addition to all applicable service charges, monthly rates, and nonrecurring charges, for example lines/trunks and other services or equipment with which they may be associated. Only one option may be provided on a line/trunk or group of lines/trunks.

	Monthly Rate
1. Option #1:	
(a) Residence line or PBX trunk, each	\$3.65
(b) Business line or PBX trunk, each	\$5.25
2. Option #2:	
(a) Residence line or PBX trunk, each	None
(b) Business line or PBX trunk, each	None
3. Option #3:	
(a) Residence line or PBX trunk, each	\$3.65
(b) Business line or PBX trunk, each	\$5.25

S4.4 DIRECT-INWARD DIALING (DID) SERVICE

A. General

DID service permits calls incoming to a PBX or other CPE from the network to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly serves the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate intra/interexchange rates.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.4 DIRECT-INWARD-DIALING (DID) SERVICE (Cont'd)**

A. General (Cont'd)

Rates are in addition to the rates shown elsewhere in this Price List and/or tariffs for the services and equipment with which this offering is associated.

The service includes central office switching equipment necessary for inward dialing from the network directly to station lines associated with customer premises switching equipment.

The service must be provided on all trunks in a group arranged for inward service. Each trunk group shall be considered a separate service. Grouping Service will not be provided between separate trunk groups.

Facilities and operational characteristics of interface signals between the Companies provided connecting arrangements and the customer provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

One primary directory listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified in Section 15 of this Price List.

B. The customer shall be responsible for providing interception of calls to vacant and non-working assigned DID numbers by means of attendant intercept or recorded announcement service.

DID numbers are provided in blocks consisting of a minimum of 20 consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company does not guarantee to provide a number block consecutive to any other number block. The Company will be responsible for interception and administration of reserved numbers.

C. Rates

Monthly Charges:

Each Block of 20 Numbers	\$ 5.25
Each DID Trunk Termination in Central Office	\$25.00
Multifrequency (MF) Pulsing Option, each trunk	\$ 7.85
Dual Tone Multifrequency (DTMF) Pulsing Option, each trunk	\$ 7.85

Nonrecurring Charges:

The nonrecurring charge applies to the first group of DID numbers assigned to station lines per occasion. These rates and charges are applicable in addition to the rates and charges for the provision of PBX trunks and the associated equipment and services.

Group of 20 Working or Reserved DID Numbers, each	\$480.00
DID Trunk Termination in Central Office, each	\$50.00

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.5 SPECIAL BILLING NUMBER SERVICE**

A. General

Charge accounts are non-existent telephone numbers used to provide customers who desire this service a special billing account with the Telephone Company.

B. Conditions

1. The account may resemble a regular exchange telephone number, for example 846-0001 (a Millry number except that the zero thousand group of numbers in Millry are non-working numbers); or the account number may be a number which does not resemble a regular number, for example 999-0002 (a number usable for this purpose which would not be recognized by any operator as a regular telephone number).
2. The Telephone Company reserves the right to furnish this service only when a well-defined need exists and when the customer can evidence a good credit rating.

C. Rates

There is no monthly charge for maintaining this service.

S4.6 GROUND START CIRCUIT SERVICE

A. General

Ground start circuits are provided to meet the electrical connection requirements of equipment that some subscribers desire to connect to the telephone company's line or trunk circuits.

B. Rates

The monthly rate for ground start service applies to each line or trunk utilizing a ground start circuit. This feature is in addition to the regular individual line or trunk rate.

Monthly rate per line or trunk ground start circuit \$4.20

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.7 LOOP START/DISCONNECT SUPERVISION**

A. General

Loop start/disconnect supervision is provided to meet the electrical connection requirements of equipment that some subscribers desire to connect to the telephone company's line or trunk circuits.

B. Rates

The monthly rate for loop start/disconnect supervision applies to each line or trunk utilizing a loop start/disconnect circuit. This feature is in addition to the regular individual line or trunk rate.

Monthly rate per line or trunk loop start/disconnect supervision

\$4.20

S4.8 REMOTE CALL FORWARDING

- A. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (the call forwarding location) is automatically forwarded by Telephone Company central office equipment to another station designated by the RCF customer (the terminating station).
- B. Remote Call Forwarding service is offered subject to availability of suitable facilities.
- C. RCF service is not offered where the terminating station is a coin telephone.
- D. The Telephone Company will not provide identification originating telephone number to the Remote Call Forwarding customer.
- E. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.
- F. Remote Call Forwarding is not represented as suitable satisfactory transmission of data.
- G. Call Forwarding should not be offered as a feature at the RCF terminating station.

Second Revised Sheet 2

4

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.8 REMOTE CALL FORWARDING (Cont'd)**

- H. Remote Call Forwarding is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the terminating station line are needed, the customer will be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to subscribe to such additional RCF features and facilities said customer's RCF service shall be subject to termination.
- I. When the Call Forwarding number is to be located in an office exchange, the Company will determine the serving central office.
- J. Remote Call Forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Call Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the exchange serving the terminating station have the identical local calling areas.
- K. One listing in the Alphabetical Section of the Director covering the exchange in which the call forwarding Central Office is located is provided without additional charge.
- L. Rates
- i. The following charges are for the Remote Call Forwarding feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used.
- (1) Remote Call Forwarding

arranged: Business	\$27.35
Residence	\$27.35

(b) Remote Call Forwarding	
per additional access	
facility: Business	\$27.35
Residence	\$27.35

(c) A one time charge will be assessed for implementation of service. Charges assessed will be at the rate specified in Section for a Central Office work charge and service order charge.

(d) Changes at the request of the customer in either the number at the call forwarding location or the number to which calls are forwarded will be assessed a Central Office work charge and service order charge as specified in Section 3.4.

ii. The message charges applicable to remotely forwarded calls shall be comprised of two separate charges: (1) a charge for that portion of the call from the originating station to the call forwarding location; and (2) a charge for that portion of the call from the call forwarding location to the terminating station. The respective charge for each such portion shall be as follows:

(a) Between the originating station and call forwarding location.

The charge for this portion of a remotely forwarded call shall be the charge specified in this Price List for the type of call involved.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS**S4.8 REMOTE CALL FORWARDING (Cont'd)**

L. Rates (Cont'd)

ii. (Cont'd)

- (b) Between the call forwarding location and the terminating station.

The Remote Call Forwarding customer is responsible for all toll charges as specified in the applicable price list. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

C. Fees and Installation Charges

1. Installation Charges

- a. A fee of \$95.00 applies on all DSL installations.
- b. Installation charges may be waived if the customer enters into a twelve-month contract for DSL service:

In the event Subscriber has not deactivated Millry.Net DSL service within the last thirty (30) days and agrees to activate new Millry.Net DSL service and remain a Millry.Net DSL subscriber for a period of twelve (12) consecutive months after activation of service.

In the event Subscriber is an existing Millry.Net subscriber activating an additional DSL service with Millry.Net and agrees to maintain all existing service with Millry.Net for the remainder of the term of any active service contract or a minimum of three (3) consecutive months, whichever is greater, and to activate this new service and remain a Millry.Net subscriber for a period of twelve (12) consecutive months.

2. Termination Fee

If Subscriber's DSL service is disconnected for any reason prior to the end of the twelve (12)-month commitment period, the Subscriber agrees to pay a termination fee of \$150.00. This termination fee does not cover the cost of unreturned leased DSL equipment.

S6. INTRALATA PRIVATE LINE SERVICE**S6.1 UNDERTAKING OF THE COMPANY**

A. Provision of Facilities

The Company undertakes to maintain and repair the facilities which it furnishes. The Customer or authorized user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company except upon the written consent of the Company.

B. Work Performed Outside Regular Working Hours

The rates and charges specified in this Price List contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the customer. If, at the request of the customer, work is performed outside of regular working hours, either to meet his convenience or because the time allowed is insufficient to permit completion during regular hours or if the customer interrupts work which has begun, the customer may be required to pay any additional costs incurred.

C. Scope

1. IntraLATA Private Line Service is the furnishing of the Company facilities for communication between specified locations 24 hours daily seven days per week. Facilities may be those of the company only or those of the Company and connecting companies.
2. The Company does not undertake to transmit messages.
3. IntraLATA Private Line Services not specified in this Price List will be provided on an Individual Case Basis (ICB).
4. IntraLATA Private Line Service is available to Millry end user customers only. Other carriers must order under the Company's Special Access Tariff.
5. Provisions of Private Line Services referenced in this Section are subject to availability of Company facilities, equipment, and technical capabilities, and, as applicable any limitations and operating characteristics of equipment and technical capabilities.

Original Sheet 2

S6. INTRALATA PRIVATE LINE SERVICE

S6.2 DS1 SERVICE

A. General

1. DS1 service is furnished for Private Line IntraLATA communications by the Company.
2. DS1 service is a service for the transmission of digital signals only and using only digital transmission facilities.
3. DS1 service provides for the simultaneous two-way transmission of isochronous digital signals at DS1 speeds of 1.544 Mbps where facilities are available.
4. To insure satisfactory operation, the terminal equipment provided by the customer shall be compatible with the DS1/1.544 Mbps channel facility provided by the Company.
5. Unless specified following, the regulations for DS1 service specified herein apply in addition to the regulations set forth in the General Rules and Regulations.
6. The rates specified for DS1 service following contemplate the provision of a digital quality facility over existing interoffice carrier equipment and/or exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for DS1 service.

B. Description of Service

1. DS1 service is furnished for the simultaneous two-way transmission of serial, Bipolar Return-to-Zero, isochronous digital signals, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format, at a speed of DS1/1.544 Mbps between two-points located within a LATA.

PRICE LIST

Millry Telephone Company, Inc.
Issued and Effective: May 29, 2007

Section 6
Original Sheet 3

S6. INTRALATA PRIVATE LINE SERVICE**S6.2 DS1 SERVICE (Cont'd)**

B. Regulations (Cont'd)

2. DS1 service is available on a month-to-month basis or under variable rates based on lengths of 12 months, 24 months, or 36 months, under conditions specified in this Price List.
3. The Company does not represent its DS1 service as adapted for such connections, and shall not be responsible for the through transmission of signals or the quality of such transmission on such connections.
4. A Channel Service Unit (CSU) or appropriate Termination Equipment (TE) provided by the customer is required at a customer's or authorized user's premises to perform such functions as proper termination of service, amplification, signal shaping, and remote loop-back.
5. The design, maintenance, and operation of DS1 service contemplates communications originating and terminating as (1) a customer premises to customer premises channel via the Company's Serving Wire Center (SWC) and/or through remote SWC's; (2) a customer premises to the Serving Wire Center - and/or to remote SWC's - partial channel (link); or (3) a Central Office to Central Office (interoffice) partial channel(link); or (4) between SWC's of this Company and a central office of a connecting company within the LATA.

C. Definitions

Channel Service Unit - The term "Channel Service Unit" (CSU) denotes equipment provided by the Customer to terminate a digital facility on the customer's or user's premises.

Channelization - is an optional channel service package to activate voice and data facilities.

S6. INTRALATA PRIVATE LINE SERVICE**S6.2 DS1 SERVICE (Cont'd)**

C. Definitions (Cont'd)

Digital Local Channel - The term "Digital Local Channel" denotes a path for DS1 service furnished from the demarcation point on the customer's premises to their Serving Wire Center ("SWC").

DS1 - This denotes a channel service expressed in its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate, and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BRTZ) bit stream format, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format. Unframed signal formats are not permitted or compatible with Company equipment.

Interoffice Channel - The term "Interoffice Channel" denotes a path (or paths) for digital transmission between Company SWC within the LATA, or between Company SWCs and other ILEC serving wire centers within the LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Extended Superframe Format ("EFT") -Extended Superframe Format provides Clear Channel Capability.

D. Application of Rates

1. Digital Local Channels furnished between a Serving Wire Center and the customer's premises will be charged at rates set forth for Digital Local Channels under Rates and Charges.
2. Interoffice Channels furnished between Central Offices will be charged at rates based on airline distance between the Central Offices.
3. DS1 service is available on a month-to-month basis or under variable rate periods with rates based on lengths of 12 months, 24 months, or 36 months.

D. Application of Rates (Cont'd)

4. A Termination Liability Charge is applicable at the date of termination. The applicable charge is dependent on the contract period subscribed to and will be equal to the number of months remaining in the contract times the monthly rate provided under the contract.

E. Responsibility of the Company

1. The responsibility of the Company shall be limited to the furnishings and maintenance of DS1 service to that point on the customer's premises where provision is made for the connection of customer-provided equipment. If the customer requires a different location in the same building, it can be provided under the Premises Network Wiring Charge found in this Price List.
2. The Company shall not be responsible for installation, operation, or maintenance of any terminal equipment or communications systems provided by a customer. DS1 service is not represented as adapted for the use of such equipment or system. Where such equipment or system is connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for DS1 service and to the maintenance and operation in a manner proper for such digital service. The company shall not be liable for:
 - the through transmission of signals generated by such equipment or system, or for the quality of, or defects in, such transmission or
 - the reception of signals by such equipment or systems, or
 - the damage to terminal equipment or communications systems provided by a customer or authorized user due to testing.

E. Responsibility of the Company (Cont'd)

3. The Company shall not be responsible to the customer if changes in any of the facilities, operations, or procedures of the Company utilized in the provision of DS1 service render any facilities or equipment provided by a customer obsolete, or require modification or alteration of such equipment or system or otherwise affects its use or performance.
4. The Company undertakes to maintain and repair the facilities which it furnishes. The customer may not rearrange, disconnect, remove, or attempt to repair any equipment installed by the Company without prior written consent of the Company.

F. Responsibility of the Customer

1. The customer is responsible for installing and testing his premises equipment or facilities to insure that when they are connected with DS1 service such equipment or facilities are operating properly.
2. The operating characteristics of the customer's premises equipment or facilities shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the equipment provided by a customer does not: endanger the safety of Company employees or the public; damage, require change in or alteration of the equipment or other facilities of the company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's facilities or otherwise injure the public in its use of the Company's services. Upon notice from the Company that the equipment provided by a customer is causing or is likely to cause such hazard or interference the customer shall take such steps as shall be necessary to remove or prevent such hazard or interference.

S6.2 DS1 SERVICE (Cont'd)

F. Responsibility of the Customer (Cont'd)

- 3. The customer's responsibility shall include cooperative testing with the Company as may be necessary. Where regeneration and/or equalization adjustments or changes may be required to compensate for rearrangements and/or changes in outside plant facilities, the customer will be responsible for all expenses incurred in changes to his premises equipment.
- 4. The customer shall be responsible for payment of a Trouble Determination Charge as set forth in this Price List for visits by the Company to the premises of the customer where the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.

G. Rates and Charges

- 1. DS1 Local Channel is furnished between a Serving Wire Center and the customer's premises. The local channel rate includes the central office trunk termination (COTT).

a. DS1 Local Channel, each DS1 with COTT

	Nonrecurring Charge	Month to Month	12 Months	24 Months	36 Months
Each DS1	\$300.00	\$335.00	\$279.00	\$261.00	
	\$244.00				

b. Channelization (Optional)

	Per Month Nonrecurring Charge
DS1 to Voice	\$312.00 *

*Not applicable when channelization is installed at the same time as initial service. Applicable DS1 Service Connection Charges will apply if channelization is ordered after initial installation.

S6. INTRALATA PRIVATE LINE SERVICE

S6.2 DS1 SERVICE (Cont'd)

G. Rates and Charges (Cont'd)

2. Interoffice Channels are furnished between Central Offices. Rates are based on the airline distance between Central Offices.

	Nonrecurring Charge	Month to Month	12 Months	24 Months	36 Months
Fixed Monthly Rate	\$310.00	\$75.00	\$65.00	\$60.00	\$55.00
Each airline mile, or fraction thereof	-----	\$21.00	\$16.00	\$14.00	\$12.00

3. Clear Channel Capability

- a. Clear Channel Capability is furnished on a per DS1 service channel basis.
- b. Clear Channel Capability (CCC) is an arrangement that alters a DS1/1.5444 Mbps signal with unconstrained information bits, to meet pulse density requirements outlined in Technical Reference 73525. This will allow a customer to transport an all zero octet over a DS1 service channel providing an available combined maximum 1.536 Mbps data rate. This arrangement requires the customer signal at the channel interface to conform to Bipolar with 8 Zero Substitution (B8ZS) line code as described in Technical Reference 73525.
- c. CCC is provided on DS1 service channels between two customer designated premises, from a customer premises to their Serving wire Center or Node Central Office and/or to a remote Serving Wire Center or Node Central Office, and from a central office to a central office, and is subject to the availability of facilities. This optional feature may be ordered at the same time the DS1 service channel is ordered, or it may be ordered as an additional feature of an existing DS1 service channel.

Per DS1 service channel optioned as

	Monthly Charge Rate	Nonrecurring	
		Initial	Subsequent
b. Extended Superframe Format (ESF)	\$ -	\$-	\$600.00

4. Move Charge

A move charge, per DS1 service channel, applies for each DS1 Local Channel moved to a new location in the same building. This move charge is equal to the DS1 Local Loop Channel Nonrecurring Charge, Service Change Charge - Inside Moves, plus Premises Visit Charges.

A move charge, per DS1 service channel, applies for each DS1 service moved to a new location in the Company territory within the same state. This move charge is equal to the sum of all nonrecurring charges applicable to a new DS1 service channel installation at the new location.

5. Service Connection Charges

a. Service Establishment Charges are applicable, for each DS1 service channel ordered, for receiving and recording information and/or for taking action in connection with a customer's request, and processing the necessary data. These charges include engineering design, common centralized testing, and coordination.

b. Service Change Charges are applicable for receiving and recording information and/or taking action in connection with a customer's Inside Move or transfer of service responsibility request, for processing the necessary data on an existing DS1 service

¹ This charge is applicable to additional stations installed subsequent in a building.

S6. INTRALATA PRIVATE LINE SERVICE

S6.3 DIGITAL DATA SERVICES

A. General

Digital Data Services are transmission services designed to transmit data in digital form end to end over Digital facilities.

B. Description of Services

Digital Data Services are capable of the simultaneous two-way transmission of digital signals at synchronous speeds of 2.4, 4.8, 9.6, 19.2, 56, or 64 Kbps between points within a LATA.

C. Definitions

Digital Local Channel - denotes a path for services furnished from the serving wire center to the demarcation point on the customer's premises.

Digital Interoffice Channel - denotes a path for services between the serving wire center and its primary node central office, or between node central offices, within a LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Multipoint Service - denotes a service which provides communications capability between more than 2 private line locations by means of bridging or hubbing arrangement.

Secondary Channel Capability - denotes the offering of a companion digital transmission capability over the same physical facility as the primary channel at a lower bit rate. Terminal equipment required to support secondary channel capability must be provided by the customer.

S6.4 VOICE GRADE SERVICE

A. General

1. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day, for a minimum period of one month.

2. Channel Services provided under the provisions of this Price List are offered for IntraLATA Services only. Voice Grade Services consist of Local Channels, Interoffice Channels, and Optional Features and Functions.

² This option may not be available where 56.0 Kbps repeaters are required for digital local channels, and is not available with 64.0 Kbps or when the Data Over Voice Channel option is used.

³ Not available at all service locations.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

B. Rate Categories

Following are the basic rate categories which apply to Voice Grade service.

1. Local Channels

- a. A local Channel provides for a communications path between the demarcation point at a customer premises and the serving wire center of that premises. One local channel charge applies per channel termination.

2. Interoffice Channels

This rate category provides for the transmission facilities between serving wire centers associated with two customer premises, between serving wire centers associated with a customer premises and a Company hub, or between two Company hubs. Interoffice mileage is portrayed as a flat rate and a rate per mile. For method of determining airline mileage, see the MA Tariff.

3. Optional Features and Functions

This rate category provides for features and functions which may be added to a service and to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of the performance characteristics which may be obtained. This category includes a. and b. following.

a. Hub Functions

A hub is a Company designated wire center where bridging or multiplexing functions are performed i.e., connecting three or more customer premises in a multipoint arrangements or channelizing analog or digital services requiring a lower capacity or bandwidth.

- b. Provides for such things as signaling, conditioning, transfer arrangements, protection switching, etc.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

C. Service Configurations

1. There are two types of service configurations which can be provided. These are described as follows:

- a. Two-Point Service

A two-point service connects two customer premises either directly through a serving wire center(s) or through a Company hub where additional functions are performed.

- b. Multipoint Service

- (1) Multipoint service connects three or more customer premises through a Company hub.

- (2) There is no limitation on the number of mid-links available with multipoint service. However, when more than three mid-links are provided in tandem, the quality of the service may be degraded. A mid-link is a channel between hubs (i.e., bridging locations).

- (3) Voice Grade Multipoint Channel services for data use have a limit of six two-wire facility type local channels or 20 four-wire facility type local channels when used with customer-provided station equipment.

- (4) Only certain types of service are available for multipoint applications.

D. Special Routing of IntraLATA Voice Grade Service.

1. The Voice Grade services furnished in this Price List are provided over such routes as the Company may elect.
2. Special routing is involved where, in order to comply with requirements specified by the customer, the Company furnishes the private line service in a manner which includes one or both of the following conditions:

S6. INTRALATA PRIVATE LINE SERVICE

S6.4 VOICE GRADE SERVICE (Cont'd)

D. Special Routing of IntraLATA Voice Grade Service (Cont'd)

2. (Cont'd)

(a) Where two or more private lines must be furnished over different physical routes.

(b) Where a private line must be furnished on a route which avoids specified geographical locations.

3. When special routing of services is furnished a customer, the rates will be determined on an individual case basis.

E. Service Descriptions

1. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day, for a minimum period of one month. These channels may also be furnished on a link (partial channel) basis when connected to services such as DS1. Channels which also provide tie line service will not be furnished to connect a flat rate system with a message rate system. The transmission characteristics and various types of services furnished are described in B. and C. following.

2. Basic parameters and specifications for Voice Grade Service are described for the end to end operations as follows:

Basic Parameters	Speech Application	Data Application
Net Loss	Local Channels used with terminal equipment: Limit as specified in the following Local Channel descriptions. Losses or gains present in CPE have not been included.	
DC Resistance	Local Channel limit as specified in the following Local Channel descriptions. Does not imply or guarantee end to end DC continuity.	
Frequency Error	Plus or Minus 5 Hz	Plus or Minus 5 Hz loss)

Basic Parameters	Speech Application	Data Application
Frequency Response		
300 - 3000 Hz	-3dB to + 12 dB	-3dB to + 12 dB
500 - 2500 Hz	-2dB to + 8 dB	-2dB to + 8dB
Envelope Delay Distortion		
800 - 2600 Hz	Not Controlled	Less than 1750 Microseconds
C-Notched Noise (with a -13dBm0 1000 Hz Test Signal)	Not Controlled	Noise Level 24dB below signal level
Impulse Noise	Not Controlled	15 Counts in 15 minutes at a threshold of 6dB below a -13dBm0 rms 1000 Hz Signal
Phase Jitter	Not Controlled	10 degrees peak to peak
2nd Order Distortion	Not Controlled	25 dB below signal level
3rd Order Distortion signal	Not Controlled	30dB below level

3. Transmission parameters for voice grade service are described as follows:

a. Voice Grade

- (1) Two-Wire - A two-wire interface with effective two-wire facilities engineered for a 1004 Hz net loss of 0 to 10dB. Generally furnished for voice transmission, or Supervisory Control Use. Multipoint service may be provided.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

E. Service Descriptions (Cont'd)

3. (Cont'd)

a. Voice Grade

(2) Four-Wire - A four-wire interface with effective four-wire facilities engineered for a 1004 Hz net loss of 0 to 16dB. Generally furnished for voice transmission. Multipoint service may be provided.

b. Data

(1) Two-Wire - A Two-Wire interface with four-wire facilities engineered for a 1004 Hz net loss of 16dB. Generally used in the provision of analog data services. Multipoint services may be provided.

(2) Four-Wire - A Four Wire interface with four-wire facilities engineered for a 1004 Hz net loss of 16dB. Generally used in the provision of analog data services. Multipoint service may be provided.

4. Telemetry/Alarm Bridging Service

a. Regulations

(1) This Price List section contains the regulations applicable for Telemetry/Alarm Bridging Service.

(2) Except as otherwise specified following, the regulations contained herein are in addition to the regulations found in other sections of this Price List.

(3) Telemetry/Alarm Bridging Service requires the use of equipment as specified following and voice grade local channels.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

E. Service Descriptions (Cont'd)

4. Telemetry (Cont'd)

a. Regulations (Cont'd)

- (4) Terminal equipment provided by the customer to use with this service must meet specifications for such customer-provided equipment found in other sections of this Price List.
- (5) No more than 128 remote stations may be connected to a master station over an individual Split Band Active Bridge.
- (6) In Split Band Active Bridging arrangements, secondary bridges must be directly connected to the primary bridge via mid-link channels. Secondary bridges cannot be connected through other secondary bridges to allow additional layers of tandeming.
- (7) Secondary bridges, utilized in Split Band, Active Bridging arrangements, reduce the two-wire remote station capacity of the primary bridge. The initial secondary bridge reduces the primary bridge capacity by twelve two-wire remote station connections. Each subsequent secondary bridge reduces the primary bridge capacity by four additional two-wire remote station connections. At the customer's option external bridging may be provided for connecting secondary bridges at the rate applicable following without reducing the two-wire capacity of the primary bridge.
- (8) Standard multipoint bridging charges as provided in other sections of this Tariff are not applicable to this service except as provided in S6.4.G.3, succeeding.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

E. Service Descriptions (Cont'd)

4. Telemetry (Cont'd)

a. Regulations (Cont'd)

(9) Access over remote station channels is provided through a local channel and through the appropriate channel connection as contained following. Interconnection of remote stations located outside the serving wire center where the bridge to which they are to be connected is located will require interoffice channels at charges contained in this Price List.

(10) Access over each four-wire mid-link channel for Split Band Active Bridging is through voice grade interoffice channels at charges contained in this Price List. Additionally, mid-link channel connections are required as described following.

b. Service Description

(1) Telemetry/Alarm Bridging Service is a multi-station, voice frequency, private line service designed to provide connections between a master station and a number of remote stations simultaneously. Direct transmission between remote stations is not intended. This service is intended for application in multipoint, voice frequency, data or tone signaling arrangements with transmission at rates up to 400 baud.

(2) Telemetry/Alarm Bridging Service

Split Band, Active Bridging - A bridging arrangement providing for a four-wire (master station or mid-link channel) frequency split common port and multiple two-wire (remote station) ports intended for application in multipoint, voice frequency, data or tone signaling

(Cont'd)

arrangements. Two-way (polling) communication between the master station and each remote station is intended.

F. Rate Regulations

Types of rates and charges

1. The two types of rates and charges are monthly rates and nonrecurring charges and are described as follows:

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specified work activity. The three types of nonrecurring charges that apply are installation of service, installation of features and functions and service arrangements.

(1) Installation of Service

Nonrecurring charges apply for each service terminated at the customer's premises. For the installation of local channels when more than one of the same type of service, between the same locations, for the same customer is ordered and installed at the same time, one at each location is billed at the First Service Installed rate and the

F. Rate Regulations (Cont'd)

1. (Cont'd)

b. Nonrecurring Charges (Cont'd)

(1) Installation of Service (Cont'd)

others are billed at the Additional Service Installed rate.

The nonrecurring charges for the Installation of Services are set forth following as Nonrecurring Charges for the Local Channel and the Interoffice Channel rate elements.

- (2) Nonrecurring charges apply for the installation of features and functions available with the various services. For some features and functions there is a lower charge if installed coincident with the service and a higher charge if installed subsequent to the service.

c. Service Rearrangements

- (1) Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements or a change in the physical location of the point of termination at a customer premises. Changes which result in the establishment of new minimum period of obligations are treated as disconnects and starts. Changes in the physical location of the point of termination are treated as moves and are described and set forth in this Price List.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

F. Rate Regulations (Cont'd)

1. (Cont'd)

c. Service Rearrangements (Cont'd)

(1) (Cont'd)

Administrative changes will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Private Line Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the service). Administrative changes are as follows:

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes name),
- Change of customer or customer's premises address when the change of address is not a result of a physical relocation of equipment,
- Change in billing data (name, address or contact name or telephone number.

(2) All other service rearrangements will be charged for as follows:

- If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the local channel rate element will apply. The charges will apply only for the location(s) that is being added.
- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

F. Rate Regulations (Cont'd)

1. (Cont'd)

c. Service Rearrangements (Cont'd)

(2) (Cont'd)

- If the change involves changing the type of signaling on a voice grade service the subsequent, nonrecurring charge will apply for the new type signaling. The charge will apply per service termination affected.
- for all other changes, including a change of the customer of record involving no physical changes to the service provided or the addition of optional features without separate nonrecurring charges, a charge equal to a local channel rate element nonrecurring charge will apply. Only one such charge will apply per service, per change.

(3) Moves

- (a) A move involves a change in the physical location of one of the following:
 - (i) The point of interface at the customer premises.
 - (ii) The customer's premises.
- (b) The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

S6. INTRALATA PRIVATE LINE SERVICE**S6.4 VOICE GRADE SERVICE (Cont'd)**

F. Rate Regulations (Cont'd)

1. (Cont'd)

c. Service Rearrangements (Cont'd)

(3) Moves (Cont'd)

(b) (Cont'd)

(i) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half the nonrecurring (i.e., installation) charge for the affected service termination at the customer's premises. There will be no change in the minimum period requirements. If a move is made at the same time a service rearrangement is made, the total charge will never exceed a full nonrecurring charge for the basic service.

(ii) Move to a Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established at the new location. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

3. Optional Features and Functions (Cont'd)

c. Conditioning (Voice Grade Services)

- (1) Conditioning provides more specific transmission characteristics for data services. There are two types of C-conditioning and one type of D-conditioning, each with different technical specifications. C-type conditioning controls attenuation distortion and envelope delay distortion. D-type conditioning controls the signal to C-notched noise ratio and intermodulation distortion.

Conditioning is charged on a per Local Channel Basis for two-point and multipoint service. For two-point services the parameters apply to each service. For multipoint services the parameters apply to any path between any two service points.

- (2) When a channel is equipped with Type D1 conditioning and is utilized for voice communications, the Company does not undertake to represent that the channel will be suitable for such voice transmission.
- (3) C-Type Conditioning

S7. FOREIGN EXCHANGE SERVICE

<u>CONTENTS</u>	<u>Sheet No.</u>
S7.1 GENERAL.....	1
A. Regulations.....	1
B. Application, Billing, and Collection Procedures.....	4
C. Rates and Charges.....	4

S7. FOREIGN EXCHANGE SERVICE**S7.1 GENERAL**

A. Regulations

1. Foreign Exchange Service is exchange service furnished to a subscriber from an exchange other than the one from which he would normally be served.
2. The term "Serving Exchange" shall mean the exchange from which foreign exchange service is furnished. The term "Local Exchange" shall mean the exchange normally serving the area in which the subscriber's premises are located. The term "Interexchange Channel" designates that portion of the Foreign Exchange Service Circuit which is provided between the toll rate centers of the serving and local exchanges.
3. Foreign Exchange Service does not come within the Telephone Company's general undertaking, nor does the Telephone Company obligate itself to furnish such service generally; but, will do so, at its option, where facilities of such a character are available as will permit satisfactory telephone transmission and where the service is warranted by the circumstances involved.
4. Foreign Exchange Service may be provided only in connection with private branch exchange trunk lines or Individual Line Business or Residence Service. The service will be furnished only at one location or premises for each channel or circuit.
5. Where the normal exchange is operated by this Telephone Company, Foreign Exchange Service is furnished only on the condition that the applicant is a subscriber to private branch exchange service or Individual Line Business or Residence Service, in the normal exchange, and at the same location where such service is proposed to be installed. Under this condition, when a Foreign Exchange Service subscriber discontinues normal Exchange Service, the normal Exchange shall immediately notify such Foreign Exchange subscriber and Foreign Exchange business office that the Foreign Exchange Service may be discontinued ten (10) days thereafter.

S7. FOREIGN EXCHANGE SERVICE**S7.1 GENERAL (Cont'd)**

A. Regulations (Cont'd)

6. Where the Foreign Exchange is operated by, or where all or a portion of the interexchange channel is furnished by another telephone company, Foreign Exchange Service will be provided only when satisfactory arrangements can be negotiated with such company to furnish its portion of the necessary facilities.
7. Foreign Exchange calling for subscribers located in the Local Exchange will be limited to the calling area of the Serving Exchange. If any subscriber is found to be using the Foreign Exchange telephone for toll, the subscriber and the Foreign Exchange business office will be notified that the practice must be discontinued or the Foreign Exchange Service may be terminated ten (10) days after the date of such notice.
8. Interexchange mileage is the route distance between the toll rate centers of the two exchanges involved for that portion of the interexchange channel facilities furnished by this Telephone Company. For the portion of the interexchange channel facilities furnished by another telephone company, between toll rate centers of the two exchanges involved, the interexchange channel facility mileage charges of such company will apply.
9. Other services, equipment or facilities used in connection with Foreign Exchange Service, except as otherwise indicated in this Price List, are furnished subject to the rates and regulations applying in the foreign exchange from which the subscriber is served.
10. Foreign Exchange Service is furnished subject to the same restrictions as to the use of the service by other than the subscriber and his representatives, as apply in connection with other classes of service.
11. Subscribers to Foreign Exchange Service are not required to subscribe to other service in the exchange from which they would normally be served.

PRICE LIST

S7. FOREIGN EXCHANGE SERVICE**S7.1 GENERAL (Cont'd)**

A. Regulations (Cont'd)

12. Where the serving foreign exchange is a multioffice exchange, Foreign Exchange Service will be provided from whichever central office would be most economical to the Company; if an applicant desires operation from a different central office and facilities are available therefore, foreign central office mileage charges will apply for the channel required between the Company-selected central office and the central office from which the applicant desires to be served.

13. Allowance For Interruptions

a. Foreign Central Office Service

No allowance is made for interruptions of less than twenty-four hours. For interruptions of twenty-four hours or more, credit is allowed for the proportionate part of the monthly charge in multiples of one day for each twenty-four hours or major fraction thereof, of interruption for the portion of the facilities rendered inoperative by reason of the interruption.

b. Foreign Exchange Service

(1) No credit is allowed for interruptions to service of less than thirty minutes. Interruptions of thirty minutes or over are credited to the customer at the proportionate monthly contract charge in half-hour multiples for each half hour or major fraction thereof of interruption.

(2) Message Toll Telephone Service furnished at a customer's request when his Foreign Exchange Service is interrupted, is charged for at message toll telephone rates.

S7. FOREIGN EXCHANGE SERVICE**S7.1 GENERAL (Cont'd)****B. Application, Billing and Collection Procedures**

Interexchange FX Service will be furnished under the terms and conditions of the Foreign Exchange Service Agreement executed between this Company and the company involved. The Agreement contemplates that:

1. When a party located in this Company's Exchange Service area desires this class of service, he shall apply for the same to this Company, which will obtain from the company furnishing the Serving Exchange Service its charges and conditions for providing its part of the applicants requested service, and on submission to applicant, and his acceptance by executed contract of the overall charges including those of this Company, both for installation and monthly flat rate cost and conditions of service. This applicant becomes an FX subscriber of this Company which will bill to and collect from said subscriber the charges due for service rendered by this Company. The company furnishing the Serving Exchange Service shall likewise bill to and collect from said subscriber the charges due for service rendered by that company.
2. When a party located in another company's Exchange Service area desires FX Service to an exchange belonging to this Company, his application should be made to the other company. This Company will then bill to and collect from said subscriber the charges due for service rendered by this Company. The company furnishing the Serving Exchange Service shall likewise bill to and collect from said subscriber the charges due for service rendered by that company.

C. Rates and Charges

1. The basic rate for Foreign Exchange Service is the established monthly service rate for the class of service provided in the Serving Exchange.
2. The Service and Installation Charges of the Serving Exchange are applicable.

Original Sheet

4

S7. FOREIGN EXCHANGE SERVICE**S7.1 GENERAL (Cont'd)**

C. Rates and Charges (Cont'd)

3. Where all or a portion of the interexchange channel facilities are furnished by this Telephone Company, a \$1.00 mileage charge per quarter mile, or fraction thereof, per month, will apply for each circuit, measured in route miles between the terminal points of this Company's interexchange channel facilities.
4. Where all or a portion of the interexchange channel facilities are furnished by another telephone company, charges shall apply to such interexchange channel facilities as specified in the regulations of such participating company, for the portion of the interexchange channel provided.
5. Where special equipment is required for satisfactory transmission and/or signaling on the Foreign Exchange circuit, such equipment will be provided at a monthly rate based on the costs involved.
6. The rates in this section are applicable regardless of the routing method used.
7. Methods of Applying Rates
 - a. The rate for Foreign Exchange (FX) Service is the nonrecurring and monthly rate for
 - (1) Flat Rate Individual Line Main Station Service applicable within the Base Rate Area of the serving foreign exchange, plus mileage charges and installation charges specified below and other nonrecurring charges, plus,
 - (2) Flat Rate banded usage charges.Usage charges are not applicable to residence customers and FX channels where the originating and terminating ends have identical Local Calling Areas.
8. Interexchange Channel

Each exchange has a Rate Center. Charges are

based on the airline distance between Rate
Centers except for the following.

S7. FOREIGN EXCHANGE SERVICE**S7.1 GENERAL (Cont'd)**

C. Rates and Charges (Cont'd)

8. Interexchange Channel (Cont'd)

- a. Foreign Exchange Service from an Extended Area Service (EAS) group of exchanges to another exchange (home exchange) either within the EAS group or not a part of the group will be measured from the principal Toll Center exchange of the EAS group, or if no Toll Center exists, from the principal Rate Center of the group as determined by the Company. If the foreign exchange is part of more than one EAS group, mileage for the service will be measured to the principal Toll or Rate Center which is most distant from the home exchange in the case of S7.C.8.b. following.
- b. All interexchange extensions will be rated as in S7.C.8.a. preceding. Airline distance between Rate Centers is determined as provided in provisions governing Private Line Service.
- c. The Flat Rate banding schedule will be based upon mileage.
- d. All calls utilizing Foreign Exchange Service that terminate outside the Local Calling Area will be billed as Measured Toll Service in addition to the Flat Rate banding schedule.

9. Interoffice Channel

- a. When a customer requests Foreign Exchange Service from a Wire Center that is not the primary Wire Center, interoffice mileage charges apply. Charges are based on the airline distance between the primary Wire Center and the Wire Center from which the customer is served.
- b. When a customer is located in a Wire Center, in the foreign exchange, that is not the primary Wire Center, interoffice mileage charges apply. Charges are based on the airline distance between the primary Wire

S7. FOREIGN EXCHANGE SERVICE

S7.1 GENERAL (Cont'd)

C. Rates and Charges (Cont'd)

10. When, at the subscriber's request, the interexchange channel portion of the Foreign Exchange Service is furnished by Millry, a channel terminal charge will be applicable at each Rate Center in addition to the appropriate Millry interexchange channel charge, at rates specified in this section.
11. Provided that facilities are available and technical equipment allows, extension line service will be furnished in the foreign exchange.
12. The Local Service Rate of, and Long Distance rates to and from, main stations connected for foreign exchange service are the same as regularly apply to stations located in the foreign exchange area.
13. Where Foreign Exchange Service is provided at a location outside the exchange area boundary of the exchange from which service is desired and said location is not within the exchange area of another exchange or where the applicant for Foreign Exchange Service is so located that it would be more economical to the Company to provide the Foreign Exchange Service direct from the foreign exchange to applicant's location by the extension or utilization of existing plant, the foreign exchange mileage charge will apply as follows.

For the distance from the applicant's location to the Rate Center of the foreign exchange area from which service is to be furnished a mileage charge as specified below applies.

14. Foreign Exchange Service may be furnished involving two areas of the Company or involving an area of the Company and an area of a connecting company when the connecting company is willing to concur in arrangements for furnishing such service. Where the connecting company provides billing for its portion of the Foreign Exchange Service, the charges will be in accordance with the connecting company's rates and terms and conditions.

S7. FOREIGN EXCHANGE SERVICE**S7.1 GENERAL (Cont'd)**

C. Rates and Charges (Cont'd)

15. Where alternate full period Foreign Exchange Service is provided, an intercept arrangement may be furnished which transfers the foreign exchange number to a receiving only local number when the service is in the full period condition. This arrangement contemplates a standard termination in a handset, key equipment and is furnished at the rates and charges as specified below.
16. The service charges for connections, move or change of service apply in addition to the installation charge.
17. When the subscriber is located outside the Base Rate Area Boundary, but within the Exchange Area Boundary of the Local Exchange, exchange mileage charges shall apply between the subscriber's premises and the Base Rate Area Boundary, at the rate specified for Local Exchange.
18. Where the serving exchange is in another telephone company, a supplemental charge of \$10.00 per month will apply for each 5 (five) cent multiple of the dialed day station initial period toll rate between the local and serving exchanges.
19. Where the local exchange is in another telephone company and the serving exchange is this Telephone Company, one-half of the above rate applies.

C. Exceptions to Construction Charges.....	2
S8.2 Temporary Service.....	2
S8.3 Moves or Changes of Existing Construction.....	2
S8.4 Miscellaneous Conditions.....	2
S8.4.1 Special Types of Construction.....	2

S8. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

A. General

1. Construction charges are non-recurring charges made under certain conditions and are in addition to applicable charges for the class of service furnished, mileage charges, service connection charges, charges for moves and changes, and other charges that may be applicable.
2. Construction charges are payable at the time the application for service is signed or when the account is rendered, as the Telephone Company, at its option, may require.
3. The word "Cost" is to be interpreted to mean the cost of labor and materials, and in addition charges for supervision and other overhead expenses associated with the construction.
4. When attachments are made to poles of other companies, in lieu of providing new pole line construction for which the subscriber would regularly be charged construction charges under the provision of this section, the attachment rental charges to the Telephone Company for such attachments must be borne in whole or in part by the subscriber as the particular circumstances may warrant.

B. Private Right-of-Way

1. When an applicant is so located that it is necessary to use private right-of-way to furnish service and the Telephone Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the cost incurred in securing, clearing, and retaining such right-of-way.
2. The Company shall not be liable for failure to furnish service, unless the purchase price and costs expended by the Company in acquiring such special or private rights-of-way by purchase or condemnation be paid or guaranteed to the Company by the subscriber. The rights-of-way here referred to are only those rights-of-way leading from the main line to the premises of the subscriber.

S8. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS**S8.1 LINE EXTENSION CHARGES (Cont'd)**

C. Exceptions to Construction Charges

1. Except as provided under "Temporary Service", no construction charge is made for the provision of new pole lines or wire on public highways within the Base Rate Area.
2. Except as provided under "Temporary Service", where the applicant is located outside the base rate area and the construction of outside plant is required to provide facilities to serve one or more applicants, the applicant or applicants may be required to bear that portion of the cost of such construction in excess of an amount equal to five years exchange service charges for the service subscribed for. Neither station installations, including drop wire, protector, or any plant within the base rate area shall be considered as construction costs.

S8.2 TEMPORARY SERVICE

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber is required to bear the total cost of such construction and the cost of removal, provided, however, that the salvage value of any plant removed shall be deducted from the total cost to be paid by the subscriber.

The Company may require the subscriber to execute a contract agreeing that service be retained for a period longer than one month.

S8.3 MOVES OR CHANGES OF EXISTING CONSTRUCTION

When the Telephone Company moves or changes existing construction for which no specific charge is quoted in this Price List, the person at whose request the move, or change, is made may be required to bear the cost of such move or change.

S8.4 MISCELLANEOUS CONDITIONS

S8.4.1 Special Types of Construction

When a special type of construction is desired by a subscriber or when the individual requirements of a

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

S9.1 GENERAL REGULATIONS

- A. Connection of customer-provided communications systems must meet the Company's requirements, as well as Part 68 of the Federal Communications Commission's Rules and Regulations. In case any unauthorized attachment or connection is made, the Company shall have the right to disconnect the same or to suspend service during the continuance of said attachment or connection or to terminate the service. The Company shall have the right to make a charge sufficient to recover any losses experienced as a result of unauthorized attachment or connections, including, but not limited to, the cost to disconnect service.
- B. Subscribers will be billed for each service call to the subscriber's premises when service is impaired due to the connection of authorized customer-provided equipment or facilities.
- C. Responsibility of the Telephone Company

The Company shall not be responsible for the installation, operation or maintenance of any customer provided terminal equipment or communications system. Telecommunications or private line service is not represented as adapted to the use of customer provided equipment or systems and where such are connected to the Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service. Subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer provided equipment or systems, or address signaling where such signaling is performed by customer provided signaling equipment.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

S9.1 GENERAL REGULATIONS (Cont'd)

C. Responsibility of the Telephone Company (Cont'd)

The Telephone Company will, at a subscriber's request, provide information concerning interface parameters, including the number of ringers which may be connected to a particular telephone line needed to permit customer provided terminal equipment to operate in a manner compatible with telecommunications or private line service.

The Telephone Company may make changes in its telecommunications or private line services, equipment, operations or procedures, where such action is not inconsistent with Part 68 of the Federal Communications Commission's Rules and Regulations.

If such changes can be reasonably expected to require modification or alteration of customer provided terminal equipment or communications systems or materially affect its performance, the Company will make a reasonable effort to notify the customer in advance, to allow the customer an opportunity to maintain uninterrupted service.

The Telephone Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or in connection with the use of facilities of customers and not caused solely by the negligence of the Telephone Company.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

S9.1 GENERAL REGULATIONS (Cont'd)

D. Violation of Regulations

Where any customer provided equipment or system or communication system provided to a customer is used with telecommunications service in violation of any of the provisions in this Price List, the Telephone Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 5 days, following the receipt of written notice from the Company, that such use has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Telephone Company within the time stated above shall result in termination of the customer's service until such time as the customer complies with the provisions of this Price List. The right of the Telephone Company to terminate service, as provided above, includes the right to suspend the service or to disconnect such customer provided equipment or communications system.

E. Hazardous or Inaccessible Locations

Customer provided equipment which serves a location which the Telephone Company considers impracticable to service because of hazard or inaccessibility may be connected with telecommunications service by means of connecting equipment furnished by the Telephone Company.

F. Provisions of Channels and Equipment

When the customer elects to provide his own communications system, it is contemplated that the customer shall provide all station apparatus and associated channels which are a part of the system and which are located on the same customer's premises as the system.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER****S9.1 GENERAL REGULATIONS (Cont'd)****G. Recording, Reproducing, and Automatic Answering and
Recording Equipment****1. Recording or Two way Telephone Conversations**

Telecommunications and private line services are not represented as adapted to the recording of two way telephone conversations. Customer provided voice recording equipment may be connected with telecommunications and private line services, in accordance with the provisions in this Price List, subject to the following conditions:

When recording equipment is in use and is a direct electrical connection with services of the Telephone Company, a recorder tone that is repeated at intervals of approximately fifteen seconds is required except that the recorder tone described is not required:

- a. When the equipment will be used by public fire and police departments exclusively for the receipt of intrastate fire and police calls, and attended at all times for such purpose.
- b. For Federal Communications Commission licensed broadcast stations for the purpose of recording two way telephone conversations for broadcast over the air so long as those activities are consistent with the applicable broadcast regulations.
- c. When such equipment is used by the United States Department of Defense at command centers for emergency communications transmitted over the Defense Department's private line system when connected to the telecommunications network.
- d. For the United States Secret Service of the Treasury Department to record Telephone conversations which endanger the safety and security of the President of the United States, and members of his immediate family.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER****S9.1 GENERAL REGULATIONS (Cont'd)**

G. Recording, Reproducing, and Automatic Answering and Recording Equipment (Cont'd)

1. Recording or Two way Telephone Conversations (Cont'd)

Customer provided voice recording equipment shall be so arranged that it can be physically connected to and disconnected from Telephone Company facilities and switched on and off.

S9.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS

A. Customer provided registered terminal equipment, registered protective circuitry, and registered communications systems may be directly connected at the customer's premises to the telecommunications network, subject to Part 68 of the Federal Communication Commission's Rules and Regulations:

1. A customer provided registered key system may be connected directly to the public switched network, provided that the customer provided equipment and the associated customer provided premises wiring are in compliance with Section 68.214 and 68.215 of the FCC's Rules and Regulations.
2. The customer shall notify the Company of each line to which registered equipment is to be connected and shall notify the Company when such registered equipment is permanently disconnected. The customer shall provide the Company the registration number and ringer equivalence number for the registered equipment. The customer is also responsible for specification of the appropriate protective connecting arrangement when other than the standard jack is required. (See FCC Part 68, Section 68.106, Notification to Telephone Company.)

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS
(Cont'd)**

A. (Cont'd)

3. The Company is not obligated to provide system and/or terminal equipment or station wiring beyond the point of connection (network interface) with customer provided systems and/or terminal equipment.

B. Premises Wiring Associated with Registered or Grandfathered Communications Systems

1. Premises Wiring is wiring which connects separately housed equipment entities or system components to one another, or wiring which connects and equipment entity or system component With the telephone network interface, located at the customer's premises and not within an equipment housing.

a. Fully protected Premises Wiring is premises wiring which is:

(1) No greater than 25 feet in length (measured linearly between the point where it leaves equipment or connector housings) and registered as a component of and supplied to the user with the registered terminal equipment or protective circuitry with which it is to be used.

(2) A cord which complies with (1) preceding and which is extended once by a registered extension cord. Extension cords may not be used as a substitute for wiring which for safety reasons should be affixed to or embedded in a building's structure.

(3) Wiring located in an equipment room with restricted access, provided that this wiring remains exposed for inspection and is not concealed or embedded in the building's structure, and that it conforms to Part 68 of the Federal Communications Commission's Rules and Regulations.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS
(Cont'd)**

B. Premises Wiring Associated with Registered or Grandfathered Communications Systems (Cont'd)

1. (Cont'd)

a. (Cont'd)

(4) Electrically behind registered equipment, system components or protective circuitry which assure that electrical contact between the wiring and commercial power wiring or earth ground will not result in hazardous voltages or excessive longitudinal imbalance at the telephone network interface.

b. Protected Premises Wiring Requiring Acceptance Testing for Imbalance is premise wiring which is electrically behind registered equipment, system components or circuitry, which assure that electrical contact between the wiring and commercial power wiring will not result in hazardous voltages at the telephone network interface.

c. Unprotected Premises Wiring is all other premise wiring.

2. Customers who intend to connect premise wiring other than Fully Protected Premises Wiring to the telephone network shall give advance notice to the Company in accordance with the procedures specified in Part 68, Section 68.106(c) of the Federal Communication Commission's Rules and Regulations.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.3 CONNECTIONS OF GRANDFATHERED TERMINAL EQUIPMENT AND
GRANDFATHERED COMMUNICATIONS SYSTEMS**

A. Direct Connections and Connections Through Connecting
Arrangements Provided by the Company

1. If the initial rule compliance connection was made prior to January 1, 1980, grandfathered Terminal Equipment and Grandfathered Communication Systems may remain directly connected and be moved and reconnected to the telecommunications network for the life of the equipment without registration. The equipment or system may be modified only in accordance with Part 68 of the Federal Communication Commission's Rules and Regulations, subject to the following:

- a. The customer shall notify the Company when grandfathered terminal equipment or a communication system is to be connected. Notification should include a description of the equipment, manufacturer's name, model number and type of equipment and state its previous connection, which qualifies it for continued connection. The customer shall also notify the Company when such communications equipment and systems are to be permanently disconnected.
- b. All connections are made through a network interface agreeable to the Company and the customer.
- c. All such connections shall comply with all the criteria contained in Subpart D of Part 68 of the Federal Communication Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

S9.4 ACOUSTIC OR INDUCTIVE CONNECTIONS

A. General

Customer provided voice or data terminal equipment and customer provided communications systems may be acoustically or inductively connected at the customer's premises to the telecommunications network provided the connection is made externally to the network control signaling unit when the unit is Telephone Company provided. The customer provided communications equipment must comply with all the criteria contained in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

**S9.5 CONNECTIONS OF CUSTOMER PROVIDED COMMUNICATIONS SYSTEMS
NOT**

SUBJECT TO PART 68 OF THE FCC RULES AND REGULATIONS

- A. Customer provided communications systems not subject to Part 68 of the Federal Communications Commission's Rules and Regulations may be connected with telecommunications services in accordance with this Price List. These communications systems (including channels derived from such systems), not exceeding voice grade, may be connected at the customer's premises provided that:
1. Such telecommunications service or customer provided communications system is utilized for the origination or termination of communications at the customer's premises where the connection is made.
 2. The connection shall be through a network control signaling unit and connecting arrangement furnished by the Company.
 3. The connection shall be made through switching equipment provided either by the customer or by the Company.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.5 CONNECTION OF CUSTOMER PROVIDED COMMUNICATIONS SYSTEMS NOT
SUBJECT TO PART 68 OF THE FCC RULES AND REGULATIONS
(Cont'd)**

A. (Cont'd)

3. The provisions relating to minimum protection criteria set forth in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section. As related to minimum protection criteria and when applied to the connection of customer provided communications systems, the term "Customer's premises" shall include any premises on which the customer provided communications system is terminated.

Where a telecommunications service is used in the provision of a composite data service for others and connection of such service is made to a communications system provided by a customer and the connection is made through customer provided data switching equipment, the provisions of 1. and 3. above do not apply.

**S9.6 CONNECTIONS OF CUSTOMER PROVIDED TERMINAL EQUIPMENT
SPECIFICALLY EXCLUDED FROM THE FCC REGISTRATION PROGRAM**

- A. Customer provided terminal equipment may be connected at the customer's premises to party line and semipublic coin services of the Company in accordance with the following:
 1. The connection of customer provided terminal equipment to services specifically excluded from the Federal Communications Commission's Registration programs shall be through a protective connecting arrangement which must be furnished by the Company.
 2. The connection of customer provided communications equipment must comply with all the criteria contained in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

S9.7 CUSTOMER PREMISES INSIDE WIRE

A. General Regulations

1. Customer premises inside wire and standard jacks associated with residence and business individual line basic local exchange services, as defined elsewhere in this Price List, may be provided by either the Company on a deregulated basis after January 1, 1987 or the customer.
2. Customer premises inside wire is defined as that wire, including connectors, blocks and jacks, within a customer's premises that extends between the termination of the Exchange Access Line and those standard jack locations within the customer's premises to which terminal equipment can be connected for access to the Network Access Line.
3. Customer premises inside wire provided by the customer must be installed in accordance with the technical standards and installation guidelines furnished to the Commission by the Company and must comply with the National Electric Safety Code and applicable local codes.
4. Customer premises inside wire provided by the customer may be connected to residence and business individual line basic local exchange service furnished by the Company at a specified network interface.
5. The network interface for the connection of customer premises inside wire consists of a standard modular jack or appropriate device and is provided as part of the network access line. This will be installed inside or outside the customer's premises at location determined by the Company which is accessible to the customer. The normal location will be in close proximity to the protector or entrance facility, whenever practicable.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

S9.7 CUSTOMER PREMISES INSIDE WIRE (Cont'd)

A. General Regulations (Cont'd)

6. The Company is not obligated to connect telephone instruments and standard modular jacks to customer provided inside wire.
7. Maintenance of customer owned premises inside wire may be performed by either the Company on a deregulated basis after January 1, 1987, or the customer.

B. Responsibility of the Customer

1. When the customer provides the inside wire and standard jacks, the installation must be in accordance with the technical standards furnished to the Commission by the Company.
2. In the event the customer maintains or attempts to maintain inside wire, the customer assumes the risk of loss of service, damage to property, or death to or injury of the customer or the customer's agent. The customer will save the Company harmless from any and all liability claims, or other damage suits arising out of the customer's wire maintenance activity.

C. Responsibility of the Company

1. The Company will make the technical standards and installation guidelines for customer provision of inside wire available to customers at Business office or other designated locations.

D. Violation of Regulations

1. Where customer provided inside wire is a violation of Section 2, the Company will properly notify the customer of the violation and will take such immediate action as is necessary for the protection of the telecommunications network and Company employees.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

S9.7 CUSTOMER PREMISES INSIDE WIRE (Cont'd)

D. Violation of Regulations (Cont'd)

2. The customer shall discontinue use of the customer provided inside wire or correct the violation and notify the Company in writing that the violation has been corrected within 20 days after receipt of such notice.
3. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer's service until such time as the customer complies with the provision of this Price List.

E. Service Call Charge

When a customer who does not subscribe to Inside Wire Maintenance Service or lease telephone equipment from the Company requests that the Company check trouble with that customer's telephone service a Service Call Charge will apply at the following rates if no trouble is found with the Company's facilities:

Residential Service Call	\$35.00
Business Service Call	\$75.00

The Service Call Charge only covers isolation of the telephone line trouble to the customer interface. It does not cover a premise visit to check wiring leaving the customer interface, a service check inside the residence or building, or materials or premise work to repair the service.

**S9.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED
COMMUNICATIONS SYSTEMS**

A. General Provision

Communications systems provided by Other Common Carrier hereafter referred to as the OCC, may be connected with the facilities furnished by the company for Exchange and Long Distance Message Telecommunication Service, as specified in B through H following.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED
COMMUNICATIONS SYSTEMS (Cont'd)**

B. Responsibility of the Customer

Where Exchange and Long Distance Message Telecommunications Services are available under this Price List for use in connection with OCC provided communications systems, the operating characteristics of such systems shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the OCC provided systems do not endanger the safety of company employees or the public; damage, require change in, or alteration of, the equipment or other facilities unless the change or alteration is specifically permitted under the provisions of Equipment to Equipment Connections of this Price List; impair the operation of the telecommunications system or otherwise injure the public in its use of the Company's services.

Upon notice from the Company that the OCC provided system is causing or is likely to cause such hazard or interference, the customer shall arrange with the OCC to make such change as shall be necessary to remove or prevent such hazard or interference.

The customer shall be responsible for payment of a Maintenance of Service Charge, as set forth in Service Connection Charges, for each repair visit by the company to the premises of the customer where the service difficulty results from the use of equipment, facilities, or services provided by an Other Common Carrier.

C. Network Control Signaling

Satisfactory performance of the telecommunications network requires continuing functional capability of the network control signals and the switching equipment involved. To assure such continuing capability, network control signaling (except customer provided tone type address signaling through a company provided or OCC provided connecting arrangement) in the furnishing of telecommunications service shall be performed by equipment furnished, installed and maintained by the Company or the OCC.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED
COMMUNICATIONS SYSTEMS (Cont'd)**

- D. Conditions for Connection of Other Common Carrier Provided Communications Systems at the Premises of the Customer

Other Common Carrier provided communications systems (including channels derived from such systems) analog, not exceeding voice or digital, may be connected with Exchange or Long Distance Message Telecommunications Services at the premises of the customer, provided that the connection is only made through a Service Terminating Arrangement in one of the following ways:

1. The connection is either through equipment which effects such connection externally to a company provided network control signaling unit by means of an acoustic or inductive connection for transmitting and/or receiving through direct electrical connection in accordance with "b" or "c" below.
2. Where the connection with the OCC provided communications systems involves direct electrical connection to the facilities furnished by the company for Exchange or Long Distance Message Telecommunications Service, such connection shall be made:
 - a. Through switching equipment,
 - b. Through a channel derivation device, or
 - c. Directly to the Service Terminating Arrangement.
3. Where the connection is made by means of switching equipment provided by the customer, or by means of a channel derivation device provided by the customer, such switching equipment or derivation device and the facilities provided by the OCC shall be treated as a customer provided communications system, and the regulations applicable to the connection of customer provided communications systems shall apply, as set forth in Connections of Registered Equipment and Connections of Grandfathered Terminal Equipment and Grandfathered Communications Systems.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED
COMMUNICATIONS SYSTEMS (Cont'd)**

D. Conditions for Connection of Other Common Carrier Provided Communications Systems at the Premises of the Customer (Cont'd)

4. Connection may be made if the forms of electrical communication are the same and consistent with those for which the company provided service is offered. Connections are not represented as being suitable for satisfactory transmission.

5. The rates and charges for connection with OCC provided communications systems shall be the same as those that would apply if company services were so connected. The rates and charges to the customer are in addition to the rates and charges made by the OCC for the services and channels which it provides.

E. Conditions for Connection of Other Common Carrier Provided Communications Systems at the Premises of the Company

1. Communications Systems (utilizing central office connecting facilities), not exceeding voice grade, provided by an OCC to a customer may be directly connected at the premises of the company with Exchange Service or Long Distance Message Telecommunications Service furnished by the company to the same customer, provided such connections are made through:

a. Individual exchange lines to permit communications via the OCC provided communications system, to or from the customer's premises located in an exchange foreign to the exchange in which the connection is made.

The connections specified above shall be made only if the forms of electrical communications are the same and consistent with those for which the Company provided service is provided.

**S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER**

**S9.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED
COMMUNICATIONS SYSTEMS (Cont'd)**

F. OCC Service

All arrangements for service provided by an OCC shall be made by the customer with that carrier. The furnishing of Exchange, and Long Distance Message Telecommunications Service by the company is not a part of a joint undertaking with the OCC.

G. Responsibility of the Company

The Company shall not be responsible for the installation, operation or maintenance of any OCC provided communications equipment or system. Exchange and Long Distance Message Telecommunications Services are not represented as adapted to the use of OCC provided equipment or systems, and where such equipment or systems are connected to company facilities, the responsibility shall be limited to the furnishing of facilities suitable for Exchange or Long Distance Message Telecommunications Service and to maintenance and operation of such facilities in a manner proper for such telecommunications service; subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the OCC provided equipment or system or for the quality of, or defects in, such transmission, or (2) the reception of signals by the OCC provided equipment or system, or (3) network control signaling where such signaling is performed by OCC provided network control signaling equipment.

The Company shall not be responsible to the customer or OCC if changes in minimum network protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by an OCC thereof, obsolete or require modification or alteration of such equipment or system, or otherwise affect its use or performance.

S9. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER**S9.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS (Cont'd)****H. Violation of Regulations**

When any OCC provided system is connected to the Exchange or Long Distance Message Telecommunications Service in violation of any of the provisions in Connections of Other Common Carrier Provided Communications Systems, the Company will take such immediate action as necessary for the protection of the network and will promptly notify the customer of the violation. The customer shall discontinue such connection of the equipment or system or correct the violation and shall confirm in writing to the Company within ten days, following the receipt of written notice from the Company, that such connection has ceased or that the violation has been corrected. Failure of the customer to discontinue such connection or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in suspension of the customer's service until such time as the customer complies with the provisions of this Price List.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)**

A. General

1. Enhanced Universal Emergency Number Service, also referred to as Enhanced 911 Service or E911, is a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. E911 Service requires the interaction of two distinct services: the functions provided via network-related "Service Features", and those associated with customer premises terminal equipment (PSAP equipment). "Service Features" is a regulated offering of the Local Exchange Company only, and rates and charges for same are included herein. PSAP equipment may be provided by the Company or other vendors. While the functionality of PSAP equipment is regulated by the terms and conditions set forth by the Alabama Public Service Commission, rates and charges for such equipment are subject only to economic market forces, and are therefore excluded.
2. Enhanced 911 Service is offered subject to availability of facilities.
3. The E911 customer may be a municipality, other state or local governmental unit, an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated, or an authorized reseller. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling.

B. Definition of Terms

ADDITIONAL E911 EXCHANGE LINE

Additional terminating line at a PSAP that may be ordered by the customer as an optional feature.

ALTERNATE ROUTING (AR)

A standard feature provided to allow E911 calls to be routed to a designated alternate location if

1. all E911 exchange lines to the primary PSAP are busy, or

PRICE LIST

Millry Telephone Company, Inc.

Section

10

Issued and Effective: May 29, 2007

Original Sheet 1

2. the primary PSAP closes down for a period.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

B. Definition of Terms (Cont'd)

AUTOMATIC LOCATION IDENTIFICATION (ALI)

A feature by which the name and address associated with the calling party's telephone number (identified by ANI as defined following) is forwarded to the PSAP for display. Multiple station lines with the same ANI will be identified with the address associated with that ANI. No ALI data is provided when a call is sent to Default Routing (DR). In the case of 911 calls from subscribers of wireless carriers that are interconnected to BellSouth's 911 Control Office and primary and/or secondary PSAPs equipped with data communications links to BellSouth's ALI database, these Wireless 911 calls will be delivered with a version of the ALI feature that includes certain carrier identification, cell tower or antenna array descriptive data as agreed to by the customer and the wireless carrier, and the wireless subscriber's call-back number. This information is consistent with the requirements of FCC Order 94-102 for Phase I Wireless 911 interconnection. The customer is required to make any changes in the MSAG needed to accommodate the wireless carriers' loading of their respective Pseudo-ANI (P-ANI) records into BellSouth's 911 database management system when P-ANI records are associated with towers and/or antennas located in the customer's jurisdiction.

AUTOMATIC NUMBER IDENTIFICATION (ANI)

A feature by which the calling party's telephone number is forwarded to the E911 Control Office and to the PSAP's ANI/ALI controller.

CENTRALIZED AUTOMATED MESSAGE ACCOUNTING (CAMA) MF SIGNALING

A signaling protocol for sending 8 digits of ANI from the 911 tandem to the PSAP.

DATA MANAGEMENT SYSTEM (DMS)

A system of manual procedures and computer programs used to create, store and update the data required to provide the Selective Routing (SR) and ALI features.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

B. Definition of Terms (Cont'd)

DEFAULT ROUTING (DR)

A feature activated when an incoming E911 call cannot be selectively routed due to an ANI failure, garbled digits or other causes. Such incoming calls are routed from the E911 Control Office to a default PSAP. Each incoming E911 facility group to the Control Office is assigned to a designated default PSAP. This is a standard feature of E911 Service when the service is equipped for Selective Routing.

EMERGENCY COMMUNICATIONS DISTRICT (ECD)

An area composed of the territory lying wholly within a municipality or of any part or all of the territory lying wholly within a county, created by the governing body of the municipality or the county by passage of a resolution or ordinance in accordance with the State Code of Alabama, 1975, Volume 10, Title 11, Chapter 98.

EMERGENCY SERVICE NUMBER (ESN)

A number that defines the set of emergency services (e.g. police, fire, hospital) within a particular district or zone. An ESN is associated with the primary PSAP and possibly one or more secondary PSAPs.

END OFFICE

The Central Office(s) in the E911 System which receives originating E911 calls.

ENHANCED 911 (E911) CONTROL OFFICE

The office providing tandem switching capability for E911 calls. It controls switching of ANI information to the PSAP and also provides the SR feature, standard ESS Speed Calling features, Call Transfer capability and certain maintenance functions for each PSAP.

ENHANCED 911 SERVICE AREA

The geographic area in which the customer will respond to all E911 calls and dispatch appropriate emergency assistance.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

B. Definition of Terms (Cont'd)

ENHANCED MF SIGNALING (EMFS)

A signaling protocol for sending 10 or 20 digits of ANI from the 911 tandem to the PSAP. EMF Signaling is required when five or more area codes are served by a single 911 tandem.

FORCED DISCONNECT

A function of the E911 Central Office trunk circuit which enables the PSAP attendant to release a connection even though the calling party has not hung up. This feature prevents the jamming of the E911 exchange lines and is a standard feature of E911 Service.

MANUAL TRANSFER

A feature that enables the PSAP attendant to transfer an incoming E911 call by dialing either a 7-digit or 10-digit telephone number or a 2-digit Speed Calling Code. Manual Transfer is associated with the E911 trunk and is a standard feature of E911 Service.

MASTER STREET ADDRESS GUIDE (MSAG)

A listing of all streets and house number ranges within a 911 service area. The streets and address ranges are assigned selective routing codes, or emergency service numbers (ESNs), to enable proper routing of 911 calls.

PUBLIC SAFETY ANSWERING POINT (PSAP)

An answering location for 911 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first; Secondary PSAPs receive calls on a transfer basis only and generally serve as a centralized answering location for a particular type of emergency call. PSAPs are staffed by employees of public service agencies such as police, fire or emergency medical or by employees of a common bureau serving a group of such entities.

SELECTIVE ROUTING (SR)

A feature that routes an E911 call from a central office to the designated primary PSAP based upon the identified number of the calling party.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

B. Definition of Terms (Cont'd)

SERVING CENTRAL OFFICE

The central office from which a PSAP, either primary or secondary, is served.

UNIVERSAL EMERGENCY NUMBER SERVICE

A telephone exchange communication service for receiving telephone calls placed by persons in need of assistance who dial the number 911. Such calls are answered at PSAPs established and operated by the customer. The lines and the equipment specified in this Price List section that are associated with the service arrangement for the answering, transferring and dispatching of public emergency telephone calls are included.

WIRELESS CARRIER

A person or entity who provides Commercial Mobile Radio Service (CMRS). The term wireless carrier includes service provided by any wireless real-time, two-way voice communication device, including radio-telephone communications used in cellular telephone service, personal communication service (PCS), or the functional or competitive equivalent. The term does not include service providers whose customers do not have access to 911 or a 911-like service.

C. Rules and Regulations

1. This service is limited to the use of central office telephone number 911 as the universal emergency telephone number. Only one E911 service will be provided within any government agency's locality.
2. The 911 emergency telephone number is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies will subscribe to other exchange telephone service as provided in other sections of this Price List.
3. The service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

C. Rules and Regulations (Cont'd)

4. E911 Service is classified as Business Exchange Service and is arranged for one-way incoming service to the appropriate PSAP. Outgoing calls can only be made on a transfer basis.
5. E911 Service is provided solely for the benefit of the customer operating the PSAP as an aid in handling assistance calls in connection with fire, police and other emergencies. The provision of E911 Service by the Company shall not be interpreted, construed, or regarded, either expressly or implied, as being for the benefit of or creating any relationship with or any Company obligation direct or indirect, to any third person or legal entity other than the customer.
6. The Company does not undertake to answer and forward E911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.
7. Temporary suspension of service is not provided for any part of the E911 Service.
8. Central offices that are not currently equipped to transmit ANI will not be modified to provide ANI just for E911 Service. When the Selective Routing feature is provided, in such circumstances, Default Routing and central office identification will be provided in lieu of Selective Routing and ANI Display.
9. The Company's entire liability to any person for interruption or failure of E911 Service shall be limited to the terms set forth in this section and other sections of this Price list.
10. The rates charged for E911 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

C. Rules and Regulations (Cont'd)

11. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures, or malfunctions of this service or any part thereof shall not exceed the greater of \$50.00 or an amount equivalent to the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative. These limited damages shall be in addition to any credit which may be given for an out-of-service condition.
12. It will be the intent of the Company to provide facilities designed to provide a call blocking probability of one call per hundred during normal busy hours for E911 Service.
13. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all E911 calls that originate from telephones served by central offices in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
14. Application for E911 service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. A negotiated date will be agreed upon with the customer. Should the customer choose to delay the original cut date by more than three months and the system is available for cut, installation charges may be charged effective with the originally scheduled date. Further, the cut date will be renegotiated so as not to interrupt other scheduled cutovers. When an order for E911 Service and facilities or requests for additions, rearrangements, relocations or modifications of service and equipment are cancelled in whole or in part, the customer is required to reimburse the Company for all expenses incurred in handling the request before notice of cancellation is received. Such charges, however, are not to exceed all charges which would apply if the work involved in complying with the request had been

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

C. Rules and Regulations (Cont'd)

14. (Cont'd)

At least one local law enforcement agency must be included among the participating agencies in any E911 offering.

15. Any terminal equipment used in connection with E911 Service, whether such equipment is provided by the Company or the customer, shall be configured so that it is unable to extract any information from the Data Management System other than information relating to a number identified through the ANI feature as the source of an in-progress 911 call and must comply with the guidelines for such equipment adopted by the Alabama Public Service Commission.

16. The customer must furnish the Company its agreement to the following terms and conditions.

a. That all E911 calls will be answered on a 24-hour day, seven-day week basis.

b. That the customer has responsibility for dispatching the appropriate emergency service vehicles within the E911 Service area, or will undertake to transfer all E911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.

c. that the customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the E911 PSAP by calling parties.

d. that the customer will subscribe to local exchange service at the PSAP location for administrative purposes, for placing outgoing calls, and for receiving other calls.

e. that the customer will subscribe to, or provide, telephone equipment with a capacity adequate to handle the number of incoming E911 lines recommended by the Company to be

Section

Original Sheet 8

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

C. Rules and Regulations (Cont'd)

17. When the Selective Routing feature is provided, the customer is responsible for identifying primary and secondary PSAP locations as well as the unique combinations of police, fire and emergency medical agencies or any other appropriate agencies responsible for providing emergency service in the E911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Company. The customer will associate these ESNs with street address ranges or other mutually agreed upon routing criteria in the E911 serving area. These ESNs will be carried in the Data Management System (DMS) to permit routing of E911 calls to the primary and secondary PSAPs responsible for handling of calls from each telephone in the E911 serving area. The Company may assist the customer through the provision of information from its records concerning the names, telephone numbers and service addresses of subscribers within the customer's E911 serving area. The following terms define the customer's responsibility in providing information to the Company.

- a. Initial and subsequent ESN assignments by street name, address range and area or other mutually agreed upon routing criteria shall be furnished by the customer to the Company prior to the effective date of service.
- b. After establishment of service, it is the customer's responsibility to continue to verify the accuracy of the routing information contained in the master address file, and to advise the Company of any changes in street names, establishment of new streets, closing and abandonment of streets, changes in police, fire, emergency medical or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of E911 calls to the proper PSAP.

PRICE LIST

Millry Telephone Company, Inc.

Section

10

Issued and Effective: May 29, 2007

Original Sheet

10

S10. EMERGENCY SERVICE

**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

C. Rules and Regulations (Cont'd)

17. (Cont'd)

c. The Company will provide to the customer on request a complete written copy of the master address file to permit the customer to verify the accuracy of the police, fire, and emergency medical PSAP routing designations.

d. Changes, deletions and additions which the customer desires to have made in the master address file should be submitted on an "as occurred" basis.

e. The Company will furnish a written copy of the transaction to the customer for verification showing each change, deletion and addition to the master address file.

18. Emergency Service Numbers (ESNs) are only available as part of the Selective Routing feature. Single and Multi-PSAP customers who desire to use ESNs for administrative purposes may do so as long as they subscribe to Selective Routing. Administrative ESNs can only be used to identify a unique set of responding agencies. For the purposes of this Price List, a responding agency is defined as a municipality's police, fire, emergency medical service or other appropriate agency. ESNs will not be assigned to specific police precincts, fire stations, emergency medical zones, etc. ESNs will not be assigned to allow wireless pseudo-ANIs of multiple Emergency Communications Districts (ECDs) to be aggregated for auditing and billing purposes under a single ECD.

19. The customer is responsible for preparing a map with a complete list of road names and another map that identifies jurisdictional boundaries. This includes the naming and/or renumbering of streets and the assignment of numbers for previously unnumbered property. This information is then merged with Company records to form the initial Master Street Address Guide (MSAG). The customer is provided prints of the MSAG for verification and correction purposes at various

intervals in the creation process.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

C. Rules and Regulations (Cont'd)

19. (Cont'd)

The Company may assist the customer through the provision of information from its records concerning the names, telephone numbers and service addresses of subscribers within the customer's serving area.

20. The following terms define the customer's responsibilities with respect to any information provided by the Company to the customer concerning the Company's subscribers and/or with respect to geographical information or maps:

a. Such information shall be used by the customer solely for the purpose of aiding the customer in more accurately identifying, updating and/or verifying the addresses of subscribers within the customer's E911 serving areas in connection with the customer's provision of E911 services.

b. Customer shall strictly limit access to the information to those authorized employees of the customer with a need to know and those employees actually engaged in the provision of emergency assistance services.

c. Customer shall use due care in providing for the security and confidentiality of the information.

d. Customer shall make no copies of the information except as may be essential for the verification of emergency assistance services.

e. As soon as customer has completed using the information for the purposes authorized in the Price List or upon the request of the Company, customer shall return all information and all copies of information to the Company or certify that the information has been destroyed.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

C. Rules and Regulations (Cont'd)

21. Each customer agrees to release, indemnify, defend and hold harmless the Company from any and all loss, claims, demands, suits, and other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person: (1) for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others, and which arises out of the negligence or other wrongful act of the Company, the customer, its user agencies or municipalities or employees or agents of any one of them, or (2) for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of 911 service features and the equipment associated therewith, including, but not limited to, the identification of the telephone number, address, or name associated with the telephone number used by the party or parties accessing 911 service hereunder, or (3) arising out of any act or omission of the customer, in the course of using services provided pursuant to this Price list.

D. Service Features

1. E911 Service is available in five service feature offerings.

a. Automatic Number Identification (ANI)

Charges are based on the total number of access lines served by the local switching offices equipped for ANI only.

b. Selective Routing (SR)

Charges are based on the total number of access lines served by the local switching offices equipped for SR only.

S10. EMERGENCY SERVICE**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

D. Service Features (Cont'd)

1. (Cont'd)

- c. Automatic Number Identification and Selective Routing (ANI/SR)

Charges are based on the total number of access lines to which both ANI and SR applies.

- d. Automatic Number Identification and Automatic Location Identification (ANI/ALI)

Charges are based on the total number of access lines served by the local switching office equipped for ANI and ALI but not SR.

- e. Automatic Number Identification, Automatic Location Identification and Selective Routing (ANI/ALI/SR)

Charges are based upon the total number of access lines to which ANI, ALI, and SR apply. When SR is introduced, different features may be applied to the SR subsets without being applied to the total access lines served by the local switching office. Thus, where two jurisdictions are served by a local switching office each jurisdiction may select a different feature combination as long as SR is one of the features.

2. The service feature offerings include provision of E911 Exchange Lines to all primary PSAPs and to secondary PSAPs that are equipped to display ANI information. The number of lines to a PSAP will be determined by the Company based upon anticipated call volumes. Secondary PSAPs that do not meet these specifications will receive calls on a transfer basis over the exchange network.
3. The following standard features are included with each of the service offerings:
- Forced Disconnect
 - Alternate Routing (Night Service)
 - Speed Calling
 - Central Office Transfer Arrangements
 - Default Routing

S10. EMERGENCY SERVICE

**S10.1 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)
(Cont'd)**

E. Rates and Charges

- 1. A Service Ordering Charge - premises visit not required will be applied on a per service order basis.
- 2. Messages
 - a. The calling party is not charged for calls placed to the 911 number.
 - b. Charges for toll messages transferred over exchange facilities from a PSAP are billed according to rates applicable from the central office serving the PSAP initiating the transfer to the point of termination of the transfer.
- 3. Service Features
 - a. Rounded to nearest 1000 access lines per service feature per Company (excluding WATS terminations). This count is based upon the number of access lines in service at the time service is established. The count will be adjusted annually for purposes of updating customer billing. For each Service Feature, where the count of access lines has been adjusted upward, only monthly recurring rates apply for each 1000 access lines so adjusted (after rounding).

(1) Per 1000 Access Lines Served

	Nonrecurring Charge	Monthly Rate
Combined Automatic Number and Location Identification and Selective Routing	\$3,290.00	\$152.25
Local Identification Database Service	\$3,000.00	\$50.40

S11. ISDN**S11.1 INTEGRATED SERVICES DIGITAL NETWORK (ISDN)**

A. General

1. Integrated Services Digital Network (ISDN) is a set of standards for end-to-end digital voice and data transmission over the public switched network. There are two basic standard methods of end-user access: (1) Basic Rate Interface (BRI) and (2) Primary Rate Interface (PRI).
2. Basic Rate Interface (BRI)
 - a. Provisioned over a 2-wire end-user local access line, known as a "U" interface.
 - b. 1B-channel consists of one "bearer" channel, with a speed of 64 kilobits per second (kbps), and one D-channel, with a speed of 16 kbps; the B-channel is used for carrying either voice or data while the D-channel is used for signaling and low-speed packet data service.
 - c. 2B-channel consists of two "bearer" channels, with a speed of 64 kbps per B-channel, and one D-channel, with a speed of 16 kbps; The B-channels will support simultaneous use of either voice or data while the D-channel is used for signaling and low-speed packet data service.
3. Primary Rate Interface (PRI)
 - a. Provisioned over a 4-wire end-user local access line.
 - b. This service may support the simultaneous use of voice or data; PRI has either (1) a single capacity of 1.544 megabits per second (Mbps), (2) a multiple channel capacity of 23 B-channels, at a speed of 64 kbps per channel, and one D-channel, at a speed of 64 kbps for signaling, or (3) any combination of the previous two as not to exceed 1.544 Mbps or 23B+D.

S11. ISDN

S11.1 INTEGRATED DIGITAL SERVICES NETWORK (Cont'd)

B. Conditions

1. The ISDN subscriber and/or subscriber's authorized representative shall be responsible for the following:
 - a. Procurement of necessary customer premises equipment and assurance of ISDN compatibility.
 - b. Maintenance of all equipment, cable, and/or wiring on the subscriber side of the demarcation point. If the ISDN subscriber has purchased inside wire maintenance from Millry Telephone Company, it does not include wiring for ISDN equipment. Thus, any inside wiring or premises work requested on behalf of the ISDN subscriber on the subscriber side of the demarcation point which is performed by Millry Telephone Company will be subject to a premises visit charge plus any hourly charges as set forth in Section 6 of this Price List.
 - c. All operations and maintenance performed by Millry at the subscriber's premises is performed at the expense of the subscriber.
2. Millry shall not be responsible if any changes to equipment, operations, or procedures at Millry Telephone Company being used to provide ISDN service causes any facilities of the subscriber to become obsolete or require modifications that would affect its use or performance.
3. Custom Calling Features, that are compatible with ISDN service, may be purchased to enhance ISDN service described herein. The rates for Custom Calling Features are described in Section 7 of this Price List.
4. ISDN subscribers are entitled to one directory listing per B-channel. These listings are subject to regulations set forth by Millry and are specified in Section 27 of this Price List. In addition, should the subscriber want additional directory listings for ISDN, these

listings will be provided under the terms and conditions described in Section 27 of this Price List.

S11. ISDN

S11.2 INTEGRATED SERVICES DIGITAL NETWORK (ISDN) (Cont'd)

B. Conditions (Cont'd)

5. The subscriber may choose a minimum service period from one of the following: Month-to-Month, 1 year, 24-48 months.
6. Termination Charge - If ISDN service is discontinued by the subscriber prior to the end of the minimum service agreement, the subscriber shall be charged a termination charge in the amount of 100% of the monthly charge amounts for the remainder of the minimum service period.

C. Definitions

Basic Rate Interface (BRI) - Provided over a 2-wire end-user local access line ("U" interface); may be provided with either one or two B-channels; a single B-channel may carry either voice or data; 2 B-channels will support simultaneous use of either voice or data; each B-channel has a speed of 64 kilobits per second (kbps); has 1 D-channel for signaling with a speed of 16 kbps.

Channel - Communication path that can carry a voice or data conversation.

B-Channel ("Bearer Channel") - Communications path with a speed of 64 kbps that bears or carries voice, circuit, or packet conversations.

D-Channel - Communications path with a speed of 16 kbps that is used for signaling or sending information between the Integrated Services Digital Network (ISDN) equipment and the ISDN central office switch; This channel can also carry low speed "user" packet data.

2 B-Channels - Two communications paths with a speed of 64 kbps per channel that bears or carries voice, circuit, or packet conversations; will support simultaneous use of voice or data; D-Channel is included for signaling purposes with a speed of 16 kbps.

Call Drop - A central office based calling feature

4

that allows the user to disconnect the last party added to a conference call.

Caller Number Delivery - Provides the caller's telephone number to be displayed on properly equipped customer-provided equipment.

S11. ISDN

S11.2 INTEGRATED SERVICES DIGITAL NETWORK (ISDN) (Cont'd)

C. Definitions (Cont'd)

Call Forwarding Variable - A subscriber can arrange to transfer all of his/her incoming calls automatically to any number that he/she can dial without assistance from an operator; this procedure will allow the customer to make outgoing calls during this transfer period; all incoming calls will continue to be transferred to the programmed number.

Call Hold - Allows the user to place a call on hold by pressing a programmed button on a customer-provided set.

Call Transfer - Allows the user to transfer a call to another directory number.

Capability B1 - One B-channel service, D-channel included, with a speed of 64 kbps; data only applications with no modem or voice capabilities; one directory number.

Capability C - One B-channel service, D-channel included, with a speed of 64 kbps; alternating voice and data applications (not simultaneous); one directory number.

Capability J2 - Two B-channel service, D-channel included, with a speed of 64 kbps per B-channel; one B-channel alternates between voice and data only, one B-channel data only applications; applications requiring only one voice port; two directory numbers.

Capability R - Two B-channel service, D-channel included, with a speed of 64 kbps per B-channel; data only applications with no modem or voice capabilities; two directory numbers.

Capability S - Two B-channel service, D-channel included, with a speed of 64 kbps per B-channel; each B-channel supports alternating voice and data applications with modem and voice capabilities

5

(capable of two simultaneous voice calls); two directory numbers.

S11. ISDN

S11.2 INTEGRATED SERVICES DIGITAL NETWORK (ISDN) (Cont'd)

C. Definitions (Cont'd)

Capability U (a/k/a "EZ1") - Two B-channel service, D-channel included, with a speed of 64 kbps per B-channel; each B-channel supports alternating voice and data applications with modem and voice capabilities (capable of two simultaneous voice calls); flexible calling voice features (call hold, call drop, call transfer, and three-way conference calling), call forwarding variable, multiple call handling, and caller identification (Caller ID - Number Delivery only); two directory numbers.

Integrated Services Digital Network (ISDN) - A network architecture that provides an integrated voice/data capability over the end-user local access line; two basic standard methods of end-user access: (1) Basic Rate Interface (BRI) and (2) Primary Rate Interface (PRI).

Multiple Call Handling - ISDN BRI allows the subscriber to receive up to 2 B-channel voice/data calls plus 1 D-channel packet call.

Primary Rate Interface (PRI) - Provided over a 4-wire end-user local access line; may support the simultaneous use of voice or data with either (1) a single capacity of 1.544 megabits per second (Mbps), or (2) a multiple channel capacity of 23 B-channels at a speed of 64 kbps per channel and one D-channel at a speed of 64 kbps for control signaling, or (3) any combination of these two as not to exceed 1.544 Mbps or 23 B+D.

D. Rates

1. Packages/Non-Recurring Charges

The Non-Recurring Charges apply to the following capabilities: Capability B1, Capability C, Capability J2, Capability R, Capability S, and

S12. GENERAL RULES AND REGULATIONS**S12.1 USE OF SERVICE**

A. Abuse or Fraudulent Use of Service

1. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
 - a. the use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service;
 - b. rearrangement of, tampering with or connection of equipment to the facilities of the Company to obtain, to attempt to obtain or to assist others to obtain service without payment (in total or in part) of regular charges for the service;
 - c. false representation, scheme, trick or device whatsoever intended to avoid payment (in total or in part) of regular charges for the service;
 - d. the use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to harass another;
 - e. the use of profane or obscene language;
 - f. the use of the service in such manner as to interfere unreasonably with the use of the service by one or more other customers;
 - g. the impersonation of another.

B. Use of Customer Service

The service provided to the subscriber is exclusive and may not be used by another except for employees, agents or representatives of the subscriber, or members of the subscriber's domicile; nor may any subscriber charge or receive compensation from another for services or use of the facilities provided to that subscriber without the prior written approval of the Telephone Company. This restriction does not apply to semi-public service.

First Revised Sheet 2

S12. GENERAL RULES AND REGULATIONS

S12.1 USE OF SERVICE (Cont'd)

C. Minimum Contract Period

1. Except as provided elsewhere, the initial contract period will be one month.
2. For directory listings both the initial and subsequent period will be coincident with the directory period.

D. Alabama Relay Center Restrictions

1. The following calls may not be placed through the Alabama Relay Center:
 - Calls to 976, 900 or 700 numbers.
 - Calls to time or weather recorded messages.
 - Calls to other informational recordings.
 - Station sent paid calls from coin telephones.
 - Operator handled conference service and other teleconference calls.
 - All calls billed to cards (i.e. credit cards and calling cards) other than those issued by the Telephone Company.
2. The Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections. Employees of the Company are forbidden to accept either oral or written messages to be transmitted over the facilities of the Company, except where the Company transmits messages for Telecommunications Devices for the Deaf (TDD).
3. Where the Company transmits messages through the Alabama Relay Center, the Company shall not be liable for errors in translating, transmitting, receiving or delivering messages by telephone, TDD or any other instrumentality over the facilities of the Company, connecting utilities or through the Alabama Relay Center, in the absence of gross negligence or willful misconduct.

12

Issued and Effective: May 29, 2007

Original Sheet 3

S12. GENERAL RULES AND REGULATIONS

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE

A. Application for Service

1. Applications for initial telephone service must be made and executed by the applicant or an authorized agent, on the Company's standard contract, or application form and submitted by the applicant at the Company's local business office. The Company may accept written or verbal orders for additional service when, in its judgment, such procedure is warranted.
2. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company or any other telephone company for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to establish service for former subscribers of the Company or any other telephone company who are indebted for previous service, regardless of the listing request for such service, until satisfactory arrangements have been made for the payment of such indebtedness.
3. The Company may refuse to furnish or may deny telephone service to any person, firm or corporation on whose premises is located telephone facilities which show evidence of tampering, manipulating, or use of any device whatsoever, for the purpose of obtaining service without payment of the charges.
4. When an application for service and facilities or requests for additions, rearrangements, relocations or modifications of service and equipment are canceled in whole or in part prior to completion of the work involved, the applicant is required to reimburse the Company for all expense incurred in handling the request before notice of cancellation is received. Such charge, however, is not to exceed all charges which would apply if the work involved in complying with the request had been completed.
5. When equipment has been ordered for the specific needs of a subscriber and the installation thereof is unduly delayed by or at the request of the subscriber, appropriate charges apply for such equipment for the period of the delay.

S12. GENERAL RULES AND REGULATIONS**S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)**

A. Application for Service (Cont'd)

6. When a subscriber requests a change in location of all or a part of the facilities covered by his application for service, or request additions, rearrangements or modifications of his existing service and equipment prior to completion of the work involved, he is required to pay the difference between the total costs and expenses which would have been incurred by the Company in completing the work involved and that which would have been incurred had the final location of the facilities been specified initially.

B. Application of Business Rates

1. Business or residence classification of subscriber service is determined by the use made of the service. Service is classified as business service and business rates apply where the use is primarily of a business, professional, institutional, or otherwise occupational nature, or where the service or any part thereof is furnished at a business location, except as specified elsewhere in the Price List. Where the telephone number is used in connection with business, professional, institutional, or occupational advertising or other promotional media, business rates will apply, except when a residence telephone number is advertised as an alternate call number in connection with a business telephone number. Telephone service furnished to schools, lodges, churches and clubs shall be charged at the business telephone rate.
2. Business rates apply at residence locations when the subscriber has no regular business telephone and the use of the service either by himself, members of his household, or his guests, or parties calling him can be considered as more of a business than of a residence nature, which fact might be indicated by advertising either by business cards, newspapers, handbills, billboards, circulars, motion pictures, or other advertising matter, such as on vehicles, etc. When such business use is not such as commonly arises and passes over the residence telephone during the intervals when, in compliance with the law or established custom, business places are ordinarily closed, then residential rates shall

apply.

Original Sheet 5

S12. GENERAL RULES AND REGULATIONS

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

B. Application of Business Rates (Cont'd)

3. Business rates apply at:

- a. Residence locations, when a station or extension bell is located in a shop, office, or other place of business.
- b. Residence locations where the place of residence is adjacent to a place of business and is connected thereto, and it is not evident that the telephone located in the residence is to be employed primarily for domestic use.
- c. Residence locations where an extension station or extension bell is located in any place where business rates would apply under the provisions of this Price List.
- d. At any location where business designation is provided or when any title indicating a trade or profession is listed, except as modified under "Residence Rates" in this Price List.

4. Business rates apply at offices, stores, factories, institutions, and at all other places usually recognized as being of a strictly business nature.

5. Business rates also apply at all other locations where the subscriber's primary use of the service is for business purposes, or is advertised for business purposes.

C. Application of Residence Rates

1. Residence rates apply at the following:

- a. At private residences where business listings are not employed.
- b. At private apartments in hotels and boarding houses where the service is confined to the domestic use of the subscriber and business listings are not employed.

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

C. Application of Residence Rates (Cont'd)

1. (Cont'd)

- c. At the residence of a clergyman, physician, nurse, mid-wife, dentist, veterinary surgeon or other medical practitioner, provided the telephone is not located in that portion of the subscriber's residence which is used as an office, and provided no business designation is employed. Abbreviated titles such as "Dr.", "Professor", "Rev.", are not considered business designations.
- d. In a private stable or garage when strictly a part of the subscriber's domestic establishment.
- e. In a college fraternity where members of the fraternity maintain residence.

D. Telephone Numbers

- 1. The customer has no property right to the telephone number nor any right to continuance of service through any particular central office.
- 2. The Company reserves the right to change the customer's telephone number or the central office associated with such number, or both, as may be required for the proper conduct of its business.

E. Alterations

The customer agrees to notify the Company promptly whenever alterations or new construction on premises owned or leased by him necessitate changes in the Company's equipment; and the customer agrees to pay the Company's current charges for such changes.

F. Special Construction

- 1. Private Property (See also S8: Charges Applicable Under Special Conditions)
 - a. An average amount of entrance and

distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service.

S12. GENERAL RULES AND REGULATIONS

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

F. Special Construction (Cont'd)

1. Private Property (Cont'd)

b. If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment, maintenance or methods of construction; if the stability of the customer has not been established; if the installation is for a temporary or semi-permanent purpose or if for any other reason the construction costs are excessive as compared with the revenue to be derived, the applicant shall be required to pay the costs over and above those applicable for a normal installation.

c. The customer will provide the Company without charge written permission for the placing of the Company's facilities on the property.

2. Underground

a. When feasible conduit will be furnished by the Company at cost, or conduit may be provided by the applicant subject to the Company's specifications and the National Electrical Safety Code. Conduit used for Telephone Company facilities may not be used for any other purpose without the consent of the Company. The distance between the conduit and any Electric Light or Power Conduit or Conductor shall be in accordance with the Company's specifications and the National Electrical Safety Code. The customer shall be required to pay the entire cost of maintenance of conduit including subsequent excavations and replacements necessary because of damage resulting from negligence on the part of the customer or his representatives or from freezing or improper drainage.

b. The cost of relocating underground entrance

facilities at the customer's request will be borne by the customer.

S12. GENERAL RULES AND REGULATIONS

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

G. Special Assemblies of Speculative Projects

1. Where the provision of service requires unusual costs or involves special assemblies of equipment, the Telephone Company reserves the right to require an initial contract period longer than one month.

Special assemblies of equipment consist of modification of standard equipment, or special equipment for service arrangements for which provision is not otherwise made in this Price List. They will be furnished, when practical, by the Company at charges equivalent to the estimated cost of furnishing such equipment and arrangements, if not detrimental to any of the services furnished under the Company's tariff or Price List.

2. Rates

Computations

- a. Rates for special assemblies are equivalent to the estimated cost of furnishing the special assembly.
- b. Estimate cost consists of an estimate of the total cost to the Company in providing the special assembly including:
 - (1) Cost of maintenance.
 - (2) Cost of operation.
 - (3) Depreciation on the estimated cost installed of any facilities used to provide the special assembly based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.

PRICE LIST

- (4) General administration expenses, including taxes on the basis of average charges for these items.
- (5) Any other item of expense associated with the particular situation.

S12. GENERAL RULES AND REGULATIONS

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

G. Special Assemblies of Speculative Projects (Cont'd)

2. Rates (Cont'd)

b. (Cont'd)

(6) An amount, computed on the estimated cost installed of the facilities used to provide the special assembly, for return on investment.

c. Estimated cost installed mentioned above includes cost of equipment and materials provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and any other items which are chargeable to the capital accounts.

H. Transfer of Service Between Subscribers

1. When a change of occupancy or legal responsibility takes place on any premise served by the Telephone Company, notice shall be given within a reasonable time prior to such change. The outgoing subscriber is responsible for all service charges, including toll until such notice has been properly transmitted, received and processed by the Company. If the incoming subscriber desires to continue the existing service and keep the same telephone number of the previous subscriber, he must make timely application to do so and assumes full responsibility for all billings received, including toll, from the date of the change of occupancy. When the date of change of occupancy does not coincide with the billing cycle date of toll and other services, it is the responsibility of the involved customers to split the billing between themselves. No service under this section shall be provided for the incoming subscriber

PRICE LIST

Original Sheet 10

until all his prior indebtedness has been resolved to the satisfaction of the Telephone Company.

2. In the event a home or business changes ownership during the period and a special contract or unpaid construction charges remain, the present owner must arrange to satisfy the present agreement with the Telephone Company or make arrangements satisfactorily to the Telephone Company for a new owner to assume the obligation for the balance of the obligation.

S12. GENERAL RULES AND REGULATIONS

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

H. Transfer of Service Between Subscribers (Cont'd)

3. All such notices shall be made in person or in writing. Telephone communications shall not be considered proper notice. The Telephone Company is not responsible for errors, delays or expense resulting from procedures other than those defined in this Price List.
4. Continuance of existing service is conditioned upon the acceptance of the present arrangement of services, including directory advertising.

S12.3 OBLIGATION AND LIABILITY OF THE COMPANY

A. Directories

1. The Company provides the subscriber with one copy of the telephone directory for each access line at no charge. Additional directories may be purchased upon request, subject to availability at the rate specified in the National Directory price list.
2. Telephone directories are furnished subscribers to help in using the service, and remain the property of the Telephone Company and may be collected when new directories are issued, or when service is terminated.
3. Directory Errors and Omissions
 - a. The Company's liability for damages arising from errors in or omissions of listings in its directories or directory assistance records for which no additional charge is made shall be limited to the amount of

PRICE LIST

Millry Telephone Company, Inc.

actual impairment of the subscriber's service and in no event shall exceed one-half the amount of the charge to the subscriber for Local Exchange Service during the period covered by the directory or during the period that the directory assistance records remain in error after notice to the Company by the subscriber, or \$500.00, whichever is less.

S12. GENERAL RULES AND REGULATIONS

S12.3 OBLIGATION AND LIABILITY OF THE COMPANY (Cont'd)

A. Directories (Cont'd)

3. Directory Errors and Omissions (Cont'd)

b. For listings furnished at additional charge, the Company's liability shall not exceed the amount of such additional charge during the period covered by the directory or during the period that the directory assistance records remain in error after notice to the Company by the subscriber.

c. The Company may discharge its liability for errors or omissions by abatement or refund, or by a combination of abatement and refund.

S12.4 LIMITATIONS AND USE OF SERVICE

A. Network Facilities for use with Automatic Dialing and Announcing Devices

1. Automatic Announcing Equipment. Use of the Telephone Company facilities, or service, in connection with automatic announcement service, automatic answering and recording service, recorder-coupler service, or miscellaneous devices for recorded public announcements are subject to the following conditions:

a. For purposes of identification, subscribers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for

PRICE LIST

Millry Telephone Company, Inc.

Section

12

Issued and Effective: May 29, 2007

Original Sheet 12

the service and the address at which those responsible for the transmitted recorded announcement may be contacted.

- b. Subscribers transmitting factual public announcements such as time, stock market quotations, airline schedules and similar information are excluded from the preceding condition.
2. Voice Recording Equipment. Voice recording equipment must contain a device which produces a distinctive tone at intervals of approximately fifteen seconds when the recording equipment is in use.

S13. DEFINITIONS

S13.1 DEFINITIONS

ACCESS LINE: The Telephone Company line from the central office switching point up to and including the termination of the customer's premises in either a protector or other point of demarcation.

ADDITIONAL LINE: A circuit connecting a station with another station or a circuit connecting a private branch exchange station with a private branch exchange switchboard. An additional line may terminate on a key in lieu of an instrument.

AIRLINE MILEAGE: The shortest distance between the points involved.

ALABAMA RELAY CENTER: The Alabama Relay Center permits hearing and speech impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

APPLICANT: An individual, firm, corporation, partnership, institution, association or organization whether public or private, applying for or requesting provision of telecommunications service in accordance with this Price List.

AREA CALLING SERVICE: An optional offering that provides seven digit local calling from the subscribers home wire center to all Company wire centers and participating independent company wire centers within a 40 mile radius within the same LATA, based on airline mileage, in addition to the existing local calling area.

BASE RATE: A schedule rate for any form of exchange service which does not include mileage charges.

BUILDING: A structure under one roof, or two or more structures under separate roofs but connected by an enclosed passageway through which wires may be safely run.

BUSINESS OFFICE: The office of the Company which handles subscriber billing, collections, and requests for service.

BUSINESS SERVICE: Company service provided to firms, corporations, agencies, partnerships, associations and other institutions, public or private, whose basic concern is the conduct of business, or the fulfillment of a public responsibility, and normally engaged in acts of commerce. One

S13. DEFINITIONS

S13.1 DEFINITIONS (Cont'd)

CALL: An attempted or completed communication.

CENTRAL OFFICE: The location of the Telephone Company's switching equipment and where an individual telephone station may be switched and connected to another.

CENTRAL OFFICE EQUIPMENT: Switching, transmission and power equipment located within a central office for the purpose of connecting local, EAS and toll calls.

CENTRAL OFFICE LINE: A circuit directly connecting an individual line or party line with a central office.

CENTRAL OFFICE WORK CHARGE: The charge for work associated with the central office applicable for functions required within the central office.

CHANGE: Revisions in telephone service, lines or equipment subsequent to the establishment of such services, lines or equipment, and also to rearrangements of outside or inside wiring (including house cable which does not involve moves, at the customer's request).

CHANNEL: A path for communication between two or more stations or Telephone Company offices, furnished in such a manner as the Telephone Company may elect, whether by wire, radio or a combination thereof.

CLASS OF SERVICE: A description of telecommunications service furnished a subscriber which denotes such characteristics as nature of use (Business or Residence) or type of rate (Flat Rate or Message Rate). Classes of service may be sub-divided in "grades", such as individual line or party line.

COMMISSION: Alabama Public Service Commission.

COMMUNICATIONS SYSTEM: Channels and other facilities which are capable, when not connected to exchange telecommunications service, of two-way communications between customer-provided terminal equipment or deregulated Company provided stations.

COMPANY: Wherever used in this Price List, refers to Millry Telephone Company unless the context clearly indicates otherwise.

CONNECTING COMPANY: A corporation, association, partnership or individual owning or operating one or more exchanges and with which communications services are interchanged.

CONSTRUCTION CHARGE: A separate nonrecurring charge made for the

the rates quoted in the service order schedule.

CONNECTING TERMINAL: The connecting point between the Telephone Company's exchange plant and the equipment located on the customer's premises.

CONSTRUCTION: All activities required by the Telephone Company in order to initiate, rearrange, discontinue or otherwise provide or modify service or facilities provided to the subscriber.

CONTRACT: An agreement, either written or oral, under which telecommunications services or facilities are furnished subject to the rules and regulations specified in this Price List.

COST: The cost of labor and materials, which includes appropriate amounts to cover the Company's general operating and administrative expenses.

CUSTOM CALLING: Special calling features such as call waiting, call forwarding, three-way calling and speed calling. Available only in areas equipped with special equipment at the central office.

CUSTOMER: The person, firm or corporation responsible for the payment of charges and compliance with the regulations of the Telephone Company. May be different from the user. (See "User".)

CUSTOMER PREMISE EQUIPMENT (CPE): Any terminal equipment located at customer premises which is used for telecommunications.

DIRECTORY LISTINGS: Information contained in the Telephone Company-owned telephone directory or directory assistance records, where telephone users may obtain the telephone number of listed subscriber stations.

DISCONNECT: Discontinuance of telephone service made at the request of the subscriber or at option of the Telephone Company for nonpayment of service or other valid reasons; the facilities so disconnected by the Telephone Company may be made immediately available for use by another subscriber.

EMERGENCY: A situation or condition, as determined by the Telephone Company, which demands immediate attention and requires substantial change from the normal conduct of utility business and which left unattended could seriously threaten the public safety.

S13. DEFINITIONS

S13.1 DEFINITIONS (Cont'd)

EXCHANGE: The areas authorized by the Commission for the administration of communication service by the Company.

EXCHANGE ACCESS SERVICE: An unlimited local exchange service which allows users not located in the Telephone Company serving area to access the public switched network of the Telephone Company.

EXCHANGE AREAS: The territory served by an exchange as specified in the Price List.

EXCHANGE SERVICE: The service of furnishing access to Company facilities for telephone communications within a local service area in accordance with the regulations and for the rates and charges specified in the Price List.

EXTENDED AREA SERVICE: A telephone service providing for calls between two exchanges without applying message toll charges.

FACILITIES: All property and means owned, operated, leased, licensed, used, furnished, or supplied for, by or in connection with the rendition of telephone service.

FOREIGN CENTRAL OFFICE: Any central office other than that which serves the area in which the customer is located.

FOREIGN EXCHANGE (FX) SERVICE: Exchange service furnished a subscriber from a central office located in an exchange other than that in which the subscriber's primary station is located.

INDIVIDUAL LINE SERVICE (or ONE PARTY SERVICE): A grade of exchange service by means of a central office line arranged to serve one subscriber telephone number only.

INTEREXCHANGE CHANNEL: That portion of a channel which connects stations in two or more exchanges.

INSIDE WIRING: The wire and incidentals installed on the subscriber's premises to connect the communication devices with the connecting terminal.

INSTALLATION: Any activity required by the Telephone Company in order to initiate, rearrange, delete or otherwise provide or modify service or facilities for use by the general public.

INSTALLATION CHARGES: An initial, nonrecurring charge made under certain conditions to cover all or a portion of the cost of installation of telephone service. The payment of an installation charge gives the subscriber no ownership wholly or

INTERCONNECTIONS: A term used to indicate the connection of customer-provided communicating device with the facilities owned by the Telephone Company.

INTERFACE: That point on the premises of the subscriber at which facilities owned by others is connected to Telephone Company facilities.

JOINT USER: An individual or concern authorized by the Telephone Company and the subscriber to share in the use of the customer's telephone service, subject to rules and regulations of this Price List.

LINE EXTENSION: The outside plant required in addition to existing facilities to render telephone service, exclusive of instruments.

LOCAL ACCESS AND TRANSPORT AREA (LATA): Geographic area established for the purpose of defining the territory within which a Bell Operating Company may offer its telecommunications services.

LOCAL CALLING AREA: The areas within which telecommunications service is furnished subscribers under a specific schedule of exchange rates and without toll charges. A local calling area may include one or more exchange service areas, or portions of exchange service areas.

LOCAL CHANNEL: That portion of a channel which connects a station to an interexchanging channel or a channel connecting two or more stations within an exchange area.

LOCAL SERVICE AREA: The area within which telephone service is furnished customers under a specific schedule of exchange rates and without toll charges. A local service area may include one or more exchange areas.

LOCAL TELEPHONE SERVICE: Service available within the Telephone Company service area for communication between subscribers located within that Telephone Company service area only.

MESSAGE: A completed subscriber telephone call.

MISCELLANEOUS SERVICE: Service not regularly furnished with the various classes of exchange service.

S13. DEFINITIONS

S13.1 DEFINITIONS (Cont'd)

MOVE: A transfer of telephone service from one location to another on the same premise where there is no interruption of service other than is incident to the work involved. Transfers of telephone service from one premise to another, or from location to another on the same premise involving a break in the continuity of service and resulting in cessation of local service charges but not considered as moved but as new service and service charges that may be applicable.

NETWORK CONTROL SIGNALING UNIT: The terminal equipment furnished, installed, and maintained by the Company for the provision of network control signaling.

NETWORK INTERFACE DEVICE (NID): A standard FCC Registration Program jack or equivalent that is installed by the Telephone Company as part of the network access line on a customer's premises at a location determined by the Company which is accessible to the customer and consistent with FCC Registration regulations governing the location of the network interface. The network interface is located on the customer's premises and serves as the point of connection for all premises services to the telecommunications network.

NEW SUBSCRIBER: Applicants having no basic monthly service or those subscribers changing service premises.

OTHER COMMON CARRIER (OCC): Specialized Common Carriers, Domestic and International Records Carriers, Domestic Satellite Carriers and Value-Added Carriers that are authorized by the FCC to provide private or off-network MTS/WATS equivalent services.

PREMISES: The building, portion or portion of a building on continuous property used and/or occupied at one time by the customer in the conduct of his business or as a residence. Where floor space adjoining building is made continuous at one or more floor levels, all floor space in both buildings is considered the same premises insofar as the customer who uses and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

PREMISE VISIT CHARGE: Charges incurred when it is necessary for the Company to visit the subscriber's service location.

PRIVATE BRANCH EXCHANGE (PBX) SERVICE: An inter-communication system composed of switchboards, automatic switching equipment,

and various ancillary devices located on the subscriber's premises, including local stations with intercommunication capability between them through automatic switching equipment. Access to the Telephone Company's local exchange and long distance facilities is by means of one or more central office trunks.

PRIVATE BRANCH EXCHANGE TRUNK: A circuit connecting a private branch system with a central office.

REGRADE: A change in the classification of service.

RESTORATION CHARGE: A charge applying to restore service following a temporary suspension of such service for nonpayment of charges.

SERVICE CHARGE: A nonrecurring charge applying to the establishment of telephone service for a subscriber and subsequent alterations to that service.

SERVICE CONNECTIONS: The establishment of telephone service, lines or equipment for a customer, and transfers of telephone service, lines or equipment from one premises to another or non-contiguous property subsequent to the establishment of such service lines or equipment for a customer.

SERVICE ORDER CHARGE: A charge made to offset the cost of establishing or changing a subscriber service.

SERVICE POINT: Used in connection with customer-owned communications, the point on the customer's premises where customer-provided equipment connects with the facilities of the Telephone Company.

STATION: Each telecommunications instrument location on the premises of a subscriber or authorized user and connected for his benefit.

SUBSCRIBER: See "Customer".

SUPPLEMENTAL EQUIPMENT: Attachments, apparatus, and accessories or devices which, at the request of the subscriber, the Telephone Company provides in accordance with the rate schedule of this Price List.

S13. DEFINITIONS

S13.1 DEFINITIONS (Cont'd)

TARIFF: With respect to Millry, a tariff is the entire embodiment of the rules, regulations, definitions and charges under which Basic Telephone Service and Optional Telephone Features, as those terms are defined by Section 37-2A-2(1) & (16) of the Code of Alabama of 1975 (as amended). With respect to the tariffs of other companies, a tariff is the entire embodiment of the rules, regulations, definitions and charges under which some other service is provided by that company.

TELEPHONE COMPANY: See "Company".

TELEPHONE NUMBER: A designation assigned to a telephone station or private branch exchange necessary for placing calls to the telephone station or private branch exchange for identification in the assessment of message charges, etc.

TERMINATION CHARGE: A special charge applied under certain conditions defined in a special contract with the subscriber when service is terminated by the subscriber before the expiration of the minimum contract period. Termination charges shall be specified in the written agreement and known in advance by the subscriber.

TEMPORARY SERVICES: Local service definitely known to be needed for a short period, such as service for contractors while constructing a building, for a sales campaign, or for events such as conventions, fairs, circuses, and athletic contests.

TERMINAL: A point at which a circuit element may be directly connected to one or more other elements.

TERMINAL EQUIPMENT: All equipment provided by common carriers and located on customer premises except over voltage protection equipment, coin-operated or pay telephones, and multiplexing equipment to deliver multiple channels to the customer. Mobile radio equipment transmit earth stations are also not considered to be terminal equipment. Effective November 1, 1987, all terminal equipment is provided on a nonregulated basis.

TIE LINE: A dedicated telephone circuit connecting two private branch exchange systems for the purpose of interconnecting the stations of one system with the stations of the other.

S13. DEFINITIONS

S13.1 DEFINITIONS (Cont'd)

TOLL CALL: A call to a point outside the local calling area of an exchange for which a long distance charge applies.

TOLL CENTER: A telephone switching center at which the operations (manual or dial) function (message timing, switching, and recording) takes place in connection with the provision of toll message service.

TOLL LINE: A circuit used exclusively for the transmission of messages between points located in different exchange areas where specific charges for each such message are applicable.

TOLL MESSAGE: A message between stations in different exchange areas and furnished under the provisions of "Message Toll Telephone Service", Section 4.

- A. **PERSON TO PERSON TOLL MESSAGE:** A toll message in which the user stipulates a desire for communication with a specified person or station at a specified location.
- B. **STATION TO STATION TOLL MESSAGE:** A toll message in which the user stipulates a desire for communication only with a specified telephone or switchboard.
- C. **COLLECT MESSAGE:** A toll message in which the user stipulates that the called party accept and pay all charges associated with the message.
- D. **THIRD NUMBER MESSAGE:** A toll message in which associated charges are billed neither to the calling station nor to the called station, but rather to a station not involved in the message.
- E. **CREDIT CARD MESSAGE:** A toll message in which associated charges are billed to a credit card number assigned by a telephone company and issued to either the called or calling party.

TOLL RATES: The charge prescribed for toll messages based upon the duration and distance of the call.

TOLL SERVICE: Toll Service (Long Distance Service) is that part of the total telephone service rendered by the Company which is furnished between customers in different exchange areas in accordance with the rates and regulations specified in this Price List.

TRUNK LINE: A channel of communication from the central office

S14. DIRECTORY LISTINGS

S14.1 GENERAL

- A. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory.
- B. Charges for listings begin with the date directory assistance records are posted, and are payable in the same manner as are charges for exchange service. Directory assistance records are posted at the time application for the listing is made, or at the time of the directory delivery, as the subscriber may desire.
- C. All listing charges are automatically discontinued upon the termination of subscriber line service. Charges for additional listings are discontinued when:
 - 1. the listed party dies
 - 2. the listed party subscribes for similar exchange service
 - 3. the listed party moves from the premises at which the exchange service is furnished.
- D. The Telephone Company reserves the right to reject additional listings when, in its judgment, such listings would tend to delay or impede the use of the service.
- E. Service may be temporarily suspended at the subscriber's request for a period of not less than two months nor more than nine months. Calling parties will be informed that service has been temporarily suspended at the subscriber's request. The subscriber's listing, including telephone number, will be continued in the telephone directory and in the directory assistance files.
 - 1. The monthly charge for this directory reservation service is one-half the subscriber line rate shown in S2.
 - 2. Service charges apply to both the start of the temporary suspension and the re-establishment of regular service.

PRICE LIST

Millry Telephone Company, Inc.

Section

14

Issued and Effective: May 29, 2007

Original Sheet

2

S14. DIRECTORY LISTINGS

S14.2 CONDITIONS

- A. Listings are intended solely for the purpose of identifying subscribers' telephone numbers and as an aid to the use of the service. The listing of subscribers without charge in the alphabetical section of the directory does not contemplate special prominence or arrangement.
- B. The Telephone Company, in accepting listings as prescribed by subscribers, or prospective subscribers, will not be a party to controversies between subscribers as a result of the publication of such listings in its directories.
- C. Listings are furnished only as specified for the various services mentioned in this section. Listings are not necessary in connection with any service or facilities which are not specifically mentioned in this section and consequently are not furnished either with or without charge.
- D. The Telephone Company reserves the right to limit the length of any listing to one line in the directory by the use of abbreviations and to further the use of abbreviations for the sake of uniformity when, in the judgment of the Telephone Company, the clearness of the listing and the identification of the subscriber is not impaired thereby.
- E. Two free listings are provided for each subscriber unless modified by the conditions in F., G., or H. that follow.
- F. In connection with individual line service where there is more than one subscriber terminal and the telephone numbers are consecutive, and are arranged for trunk hunting service, only one listing is normally furnished. When, in the judgment of the Telephone Company, additional listings are necessary to properly identify the subscriber or would be helpful to his service, they may be furnished without charge provided they do not exceed the number of subscriber terminals. All listings, with or without charge, must bear the call number of the first line.

PRICE LIST

Millry Telephone Company, Inc.

Section

14

Issued and Effective: April 1, 2010

First Revised Sheet

3

S14. DIRECTORY LISTINGS

S14.2 CONDITIONS (Cont'd)

- G. In connection with private branch exchange service, additional listings may be furnished without extra charge when, in the judgment of the Company, they are necessary to properly identify the subscriber or would be helpful to his service, provided they do not exceed the number of trunk lines. All the listings, with or without extra charge, must bear the number of the first trunk line except listings of those numbers employed in making calls when the private branch exchange operators are not on duty. The listing of a trunk line not consecutive with the series or a listing of the first number of a separate series of trunk lines may be arranged to meet special conditions.
- H. When, in the judgment of the Company, the use of reference, or other listings, in excess of the number of listings permitted without extra charge, as set forth above, are needed for better identification in order to facilitate the Company's operations, such listings may be provided without charge.
- I. No listing, with or without charge, will be permitted where such listing is a repetition of any other listing furnished the subscriber.
- J. Additional name listings in excess of those permitted without extra charge and additional line matter, are furnished at rates specified in S14.5 Rates.
- K. A subscriber's listing upon his request may be omitted from the telephone directory, although such omission is discouraged. The Company may decline to complete connections with such subscriber's station except by call number and may decline to furnish the call number of such subscriber's station.
- L. Listings of clergymen, physicians, surgeons, dentists, veterinary surgeons, professors, government officials, etc., may for the purpose of identification, include abbreviated designations of titles. Also the title "Mrs." or "Miss" is permitted. Degrees are permitted when they serve as a means of better identification. Titles and designations will be omitted, when a degree is used which conveys adequate information.
- M. Business listings consist of a name, a designation describing the subscriber's business, address (when available) and the telephone number.

M. (Cont'd)

1. The primary listing is ordinarily the name of the individual, firm or corporation which contracts for the service or the name under which the business is regularly conducted, but when the service is contracted for by one party for the use of a second party, the primary listing may be the name of the second party. Additional listings may be provided as specified in S14.5 Rates.
2. A trade name made up by adding a term such as Company, Agency, Shop, Works, etc., to the name of the commodity or service will not be accepted as a listing, unless the subscriber shows satisfactory evidence that he is authorized to do business under the trade name.
3. A designation consists of a word or phrase, abbreviated where necessary, used to describe the general character of the subscriber's business. Designations will not be used where the name under which the subscriber is doing business is sufficient to indicate the character of the business.
4. Additional business listings may be furnished in the names of partners or members of the firm, if the subscriber or joint user is a partnership or firm; the names of officers of the corporation, if the subscriber or joint user is a corporation; and for any business establishment, the names of associates or employees of the subscriber or joint user. Business additional listings may also be the names of individuals, firms, or corporations which the subscriber or joint user owns, or controls, or is duly authorized to, and actually does represent.

N. Residence listings consist of a name, address (where available) and the telephone number.

1. The primary listing is ordinarily the name of the individual who contracts for the service, but where the service is contracted for by one party for the use of a second party, the primary listing may be the name of the second party. Additional listings may be provided as specified

N. (Cont'd)

2. Additional residence listings may be furnished in the names of relatives, including those by marriage, domestic employees of the subscriber or other persons residing in the subscriber's house who are recognized as a party of the subscriber's domestic establishment.

O. Indented listings are used where a subscriber has more than one listing for the service under the same name at one or more locations.

Examples:

Jones, A. B. Atty.....555-4851
Res.....555-3250

Standard Oil Company
Genl. Of.....555-3751
Dist. Mgr.....555-3347
Dist. Mgr. Res.....555-7017

1. There is no charge for indented or caption listings. Names of individuals are not permitted in indented listings of this type.

2. Reference listings may be furnished to subscribers who change their name, absorb other business or subdivide their businesses and have authority to continue the use of the old names; and in other cases when, in the judgment of the Telephone Company, they are considered necessary and are not intended for advertising purposes. Such listings are furnished at regular rate for additional listings.

Example:

Northern Lumber Co.....See South Lumber

Co.

S14. DIRECTORY LISTINGS

S14.3 NON-PUBLISHED (PRIVATE) LISTING

- A. A non-published listing is not listed in either the alphabetical section of the Company's directory or directory assistance records and will not be furnished upon request of a calling party. However, when a call is placed from a telephone number associated with a non-published listing, the number and/or name may be disclosed if the called party has the necessary equipment for receiving and/or disclosing incoming telephone numbers and/or names.
- B. An incoming call to a subscriber with a non-published listing will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. The acceptance by the Company of the subscriber's request to furnish a non-published telephone number does not create any relationship or obligation, direct or indirect, to any person other than the subscriber.
- C. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a non-published telephone number in the directory or disclosing said number to any person shall attach to the Company. Where a non-published listing is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such listing. The subscriber indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published listing or the disclosing of said listing information to any person.
- D. For accounting purposes, the telephone number, name, and address of a subscriber with a non-published listing will be provided to the Long Distance Carrier(s) which furnishes the subscriber long distance message telecommunications service.
- E. The telephone number, name and address of the subscriber may be disclosed in connection with E911 service, whether such service is provided by the Company or any other person. The subscriber waives any privacy interests in his telephone number, name and address in connection with E911 service.

S14. DIRECTORY LISTINGS

S14.4 NON-LISTED (SEMIPRIVATE) LISTING

- A. A non-listed listing is not listed in the alphabetical section of the Company's directory, but is maintained on directory assistance records and will be furnished upon the request of a calling party.
- B. The acceptance by the Company of the subscriber's request to furnish a non-listed listing does not create any relationship or obligation, direct or indirect, to any person other than the subscriber.
- C. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a non-listed telephone number in the directory shall attach to the Company. Where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such non-listed listing. The subscriber indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-listed listing.
- D. The telephone number, name and address of the subscriber may be disclosed in connection with E911 service, whether such service is provided by the Company or any other person. The subscriber waives any privacy interests in his telephone number, name and address in connection with E911 service.
